### YEAR IN RETROSPECT

Contrary to expectations, during the year under review also, the industries turned out a lack lustre performance and the economy continued to be in the grip of recession. The economic slow down had a crippling effect for several companies in the sector.

Even during this testing period, your Company not only weathered the storm but emerged stronger and healthier than before. Professional approach of the company, the extent of its retail reach, unstinted confidence of investors coupled with adaptability to changing economic scenario have contributed a lot to overcome the difficult period.

Your Directors have the privilege to state that your Company has successfully met all its commitments towards fixed deposits, without any default or delay, by effective control of the collection and deployment of resources of the Company.

SHRIRAM TRANSPORT FINANCE COMPANY LIMITED

## OUTLOOK

The Current Financial Year has begun on an encouraging note. The core industries have posted better financial results. The production and sales of commercial vehicles, which probably could be termed as an important parameter for your company which is primarily engaged in financing of commercial vehicles, have shown an uptrend during the later part of the year under review.

The industrial sector therefore appears to be poised for a revival. The control by the government of inflationary pressures in economy and a definite evidence of pick up in demand certainly point to a better economic environment and consequently better operating conditions for your company.

## OPERATIONS

The Gross Profit for the year rose to Rs.2955.79 lacs as compared to Rs.2390.57 lacs of the previous year representing an increase of 23.64%. The gross stock on hire and leased assets as on 30th June 1999 were Rs. 23735.88 lacs and Rs. 7520.36 lacs respectively.

As per the offer document for issue of the 45,34,370 Secured Fully Convertible Debentures which were issued in the year 1997, the Part B of each of the debentures were converted at par into 2 equity shares of Rs.10/- each on 26th June, 1999. Part C of the debentures are due for conversion at par into 2 equity shares of Rs. 10/- each on 26.06.2000.

Despite the national economic recession, your Company has managed its affairs reasonably well. While your Company has managed to do so, the need for shoring up its resources to be ready for the opportunities and challenges in the immediate future has also to be addressed. Therefore, after a great deal of deliberation, your Directors have reluctantly and with much regret, felt compelled to recommend skipping of Equity dividends for the year under review also. However, the Directors have recommended a pro-rata dividend @ 15% p.a. on the Privately Placed Preference Shares. Your Directors are confident that you will understand the compulsions of the situation, and request you to endorse their recommendation, bearing in mind the continued welfare of the Company.

## RESOURCES

The deposits held by the Company as on 30.06.99 stood at Rs. 7392.89 lacs as against Rs. 19849.89 lacs as on 30.06.98.
