“We expect healthy and sustainable growth from the infrastructure sector”

Mr. Anil Sethi, Chairman, reviews the performance for the year and outlines the strategy for the future

Dear Shareholders,

As we look back over the years, our sustained growth has enabled us to emerge as a complete infrastructure solution provider for the nation. The past few years have been a great learning experience at SPML. Driven by the spirit of success, we always had an eye on growth. This is amply reflected in the fact that we have posted a turnover of Rs. 368 crores in 2005-06 as against

Rs. 229 crores in 2004-05, a growth of around 61%. Net income scaled new heights, confirming the profitability of operating activities. Profit recorded is Rs. 21 crores as against Rs. 3.75 crores during the previous year. Taking into account the satisfactory performance of the company, the Board of Directors has declared a dividend of 40% as against 20% in the previous year.

Our Strengths

A time proven reputation for timely and quality execution of projects. Single minded focus on Infrastructure. A wealth of experience across verticals, companies and geographies. Presence across major infrastructure verticals. A large pool of engineers, technical personnel and professionals. World class asset base. Powered with 25 years of corporate

POINTS OF OPTIMISM

The economy continue to grow at almost 8%

Vibrant capital markets and increasing FDI inflows

Rs. 7,121 crores allocated for irrigation and Water Management

The Budgetary proposal for 'Bharat Nirman' has been fixed at Rs. 18,696 crores

Govt. of India have announced Projects worth Rs. 70,98,450 million

Decision to allow 100% FDI in construction

experience, our vision for the future is to create an organization that would enjoy strong accolades at the local, national and international level.

The National scenario

The Indian Economy has continued to register a high growth rate in the current year. There is every reason to believe that 8 - 8.5% GDP growth rate is sustainable so long as the present level of investments in infrastructure continues.

I believe that, today India is standing on the verge of an infrastructure revolution. The Indian Infrastructure industry is riding on a growth wave powered by the large spends on the ongoing Infrastructure programs. The evidence of this growth is visible all over the country. It includes hospitals, urban infrastructure, highways, roads, ports, railways, airports, power systems, telecom, irrigation and agriculture systems.

Construction is the second largest economic activity in the country after agriculture. It employs a total of 32.5 million workers. The size of the construction industry in India is over \$25 billion and it accounts for more than 6% of the GDP. Construction accounts for 40% - 50% of the total investment in the country. This requires an investment of Rs. 4,000 billion every year. The Government's decision to allow 100% FDI in construction has put the spotlight on a sector has been growing rapidly in recent times.

The Budgetary proposal for 2006 - 07 for 'Bharat Nirman' has been fixed at Rs. 18,696 crores, an increase of 54% over previous year, which would be used for face lifting the rural India in terms of development of irrigation, power and roads. On the irrigation and Water Management front, the outlay for 2006 - 07 has been fixed at Rs. 7,121 crores.

As per CMIE, India Inc. and the Government of India have announced Projects worth Rs. 70,98,450 million in the next 5 - 7 years and your Company is well poised to take advantage of this opportunity.

I would like to share the features that evolve around your Company to grow upward. Strategic and robust business plans in newer domains and capitalizing on new value creation opportunities were some of the hallmarks of the year gone by.

Future ahead

With the ongoing implementation of ERP systems, we have added yet another tool and the latest technology in our portfolio.

We look to the future with optimism because the centre of economic growth is shifting to Asia. India's economy, continue to grow at almost 8% is a major factor in realizing our vision. The robustness of the Indian economy is reflected through its vibrant capital markets and its increasing FDI inflows.

Our exploration programme on the Infrastructure development side is going

full throttle and the signs are very encouraging. We believe that we will emerge as a significant player in the Infrastructure and Power sectors.

Our people

As our journey continues, it is crucial that your company invests in physical and intellectual capital by creating 'tomorrow's talent - professionals' equipped to perform at the highest standards in a global setting. To develop world class professionals, the company continues to invest in the learning and development of its young employee base. Not only is it, arming them with the latest information and technology tools, but is creating new mind-sets that pay increasing attention to cross-disciplinary skills, develop a problem-solving attitude and above all build a successful teamwork, where every roadblock inspires them to discover a new idea.

Note of thanks

I have continued to enjoy overwhelming support from the Board of Directors of SPML. I would like to take this opportunity to express my gratitude to the Board, customers, suppliers, bankers, employees and all our shareholders for their unceasing confidence and support.

Sincerely,

Anil Sethi
Chairman

MANAGEMENT DISCUSSION & ANALYSIS

ECONOMIC AND BUSINESS OVERVIEW

The year in the retrospect has been a year of overall progress for the Indian Economy. The country's GDP growth during the fiscal year was an impressive 8.1% over 7% during the last fiscal. The growth is quite significant when compared to the growth achieved by most of the other economies around the world. The level of growth on a higher base reflects the inherent resilience and robustness of the Indian economy.

Plan spending on Infrastructure is expected to be more than double from Rs. 3,95,900 crores in the Ninth Plan to Rs. 8,16,300 crores in the Tenth. Last year alone, the Government is estimated to have spent Rs. 1,34,900 crores on Infrastructure, which is 3.9% of GDP. India may have to spend at least 4.9% if it is to sustain an 8% GDP Growth.

The Company is operating in the field of Water supply, sanitation and solid waste management, Hydro Power and Electrification Projects and is an eminent player in this field. The Company has been able to bag many prestigious projects during the year under review. In roads, highways, hydro power and irrigation sectors, the Company has renewed its drive for becoming a steady player.

RESULTS OF OPERATIONS

Income from Operations

Income from Operations during the year ended 31st March 2006 stood at Rs. 36760.71 Lakhs as compared to Rs. 22992.62 Lakhs during the previous year. The increase of Rs. 13768.09 Lakhs (59.88%) over the previous year have been mainly due to successful implementation of various projects by the Company during the year.

Operating profit

The Operating Profit of the Company has increased by 85.60% to Rs. 2814 Lakhs during the current year as compared to Rs. 1516.20 Lakhs during the preceding year. The operating margin of the Company has increased to 8.54% compared to 6.59% during the last year. The substantial improvement in the profit has been mainly due to the increased operations of the Company and savings in the operational cost during the year.

Profit After Tax

There has been a quantum jump in Profit after Tax during the year. Profit after Tax has increased more than 5 times to Rs. 2104.76 compared to Rs. 375.21 Lakhs during the preceding year. The increase of Rs. 1729.55 Lakhs in Profit after Tax has been mainly due to the better utilization of resources. The Company has also been able to use its financial resources in the most efficient manner resulting in better profit margins during the year.

FINANCIAL CONDITION

Reserves & Surplus

The Reserves & Surplus of the Company has increased to Rs. 7495.24 Lakhs as on 31st March 2006 from Rs. 5674.69 Lakhs at the end of the previous year. The increase has been due to the excellent financial performance of the Company during the year.

Loan Funds

Secured loans as on 31st March 2006 stood at Rs. 5289.79 Lakhs as compared to Rs. 3097.57 Lakhs at the end of previous year, thus making an increase of Rs. 2192.22 Lakhs. The increase has been mainly due to the increased cash credit from Scheduled Banks and loans against hypothecation of vehicles.

Investments

Total investments as on 31st March 2006 stood at Rs. 2427.36 Lakhs as compared to Rs. 1686.57 Lakhs at the end of previous year.

Inventories

Inventories have increased by Rs. 3693.79 Lakhs to Rs. 7461.89 Lakhs as on 31st March 2006 as compared to Rs. 3768.10 Lakhs at the end of previous year signifying the substantial increase in the business operation of the Company.

The inventories are 18.87% of the revenues at the end of financial year representing an Inventory Holding Period of 69 days as compared to 15.10% of the revenues at the end of preceding year representing a Stock Holding Period of 55 days.

Sundry Debtors

Sundry Debtors as on 31st March 2006 stood at Rs. 12453.70 Lakhs (including Debtors over six months of Rs. 2349.16 Lakhs) as compared to Rs. 8070.58 Lakhs (including Debtors over six months of Rs. 1259.25 Lakhs), thereby showing an increase of Rs. 4383.12 Lakhs over the previous year in line with the increased business activities during the year. The outstandings over six months has increased by Rs. 1089.91 Lakhs during the year.

The Debtors are 31.50% of the revenues for the current year representing an Outstanding period of 115 days as compared to 32.35% of the revenues for the previous year representing an Outstanding period of 118 days.

CONTINGENT LIABILITIES

A major part of contingent liabilities of SPML is the performance and advance bank guarantees given by the bankers to the clients under the terms of contract. These are issued on the strength of counter-indemnities of SPML. Keeping in view the track record of SPML in meeting its contractual performance, the chances of contingent liabilities becoming real liabilities are remote. Due to an increased order book, the bank guarantee utilization with Banks has increased from Rs. 12287.78 Lakhs to Rs. 32484.20 Lakhs during the year.

OPPORTUNITIES AND FUTURE OUTLOOK

The Infrastructure Sector has emerged as India's single biggest change – driver over the last few years, raising the quality of life, creating employment and driving GDP growth. The Indian Construction Industry accounts for more than 5% of India's GDP and is the second largest after agriculture, employing nearly 32 million people.

India is investing more than ever before in its infrastructure – water, electrification, roads, ports, power and railways to facilitate its prospective
