#### REVIEW OF OPERATIONS :

During the year under review 7.30 Lakh tonnes of sugar cane was crushed at an average recovery of 9.98 percent. The cost of procurement of sugar cane increased further without any corresponding increase in the sale price of sugar. The unprecedented stock holding had resulted in increased cost of borrowing. Pursuant to repeated representations from Indian Sugar Industry, the Government of India imposed a higher duty on imported sugar and also subjected the same to release restrictions. The steps taken by the Government had restricted the import of sugar but due to record production of sugar within the country the prices of sugar did not increase to economical levels.

In the current year it is estimated that around 8 to 8.5 Lakh tonnes of sugar cane would be crushed. Favourable working results are anticipated provided the sugar prices improve and stock of sugar is liquidated.

#### STATUTORY MINIMUM CANE PRICE :

The Statutory Minimum Cane Price notified by the Government of India as applicable to our Company is as follows :
