MANAGEMENT DISCUSSION, ANALYSIS AND OPERATIONS

OPERATIONS OF 2005-06

The company despite its best efforts could not increase the volumes in the pipes division due to un-healthy competition from unorganised sector. However, On a overall performance basis the profitability of the company after making adjustments for deferred taxation as per Accounting Standard – 22 (Accounting for Taxes on Income) and providing for current taxation has been Rs. 22.12 lacs as against Rs. 11.45 lacs in the previous year.

Bhagyanagar Wood Plast Limited

FUTURE OUTLOOK

Having put in its best efforts the company is not able to maintain a set growth pattern in the present line of activity.

The management, considering the past experience and perceived future prospects in the PVC Pipes line, has come to a conclusion that to have a sustained growth and increased profitability and returns on investments the company needs to have different products and a better spread / range in products and services.

As a first step in this direction the company had identified GRP pipes as a product having good future and management is studying the feasibility of setting up the unit. The management, given its past experience in the pipe industry, believes that this new product line will augment the resources of the company and increase the profitability. This unit if setup will be operational in the Financial Year 2007-08.

To further the growth of the company on the lines mentioned above, the company is also looking at strategic mergers and acquisitions which in the opinion of the management will give a boost to the growth prospects.
