### Operations Review and Future Prospects

Your Directors are happy to report, that despite steep increase in prices of agricultural commodities, market uncertainties, volatility in forex markets and ban on exports of several agricultural commodities imposed by the Government of India, your company achieved sales turnover of Rs. 588.54Crores as against Rs.238.51Crores in the preceding year. The net profit for the year improved from Rs.266.66 Lacs in 2006 -07 to Rs.432.98 Lacs in 2007 -08. The EPS for the year worked out to Rs.2.30 as against Rs. 1.28 for the preceding year.

During the year 2007 – 08, not only the adversities of 2006 – 07 continued but the same became more intense. The Government of India, to curb increasing inflation, further widened the scope of ban on export of agricultural commodities. The forex rates also continued to be volatile and domestic prices continued to increase putting severe pressure on margins. The last quarter of the year witnessed sharp increase in the domestic prices of sugar and as a result some of our suppliers defaulted in meeting their commitments.

Owing to ban on several agricultural commodities your company had limited options. Sharp increase in prices of oil seeds and food grains led to squeeze in the margins on export of peanut and maize. As such, there was decline in our export of these commodities. The focus during the year was on export of sugar because the country had surplus sugar stocks and the Central Government and Government of Maharashtra supported export of sugar by way of subsidies and incentives. Also the export of sugar was brought under OGL by the Government of India. During the year your company exported 4,60,687 metric tons of sugar of value of Rs.521.40 Crores and continued to be a leading player in export of sugar.

## SAKUMA EXPORTS LIMITED

Presently, the focus of your company is on export of sugar and hopes to continue the same in the current year. However, efforts are being made to improve our margins by cutting costs of logistics wherever possible and identifying new clients/markets for this purpose. Efforts are also being made to improve export of a few other permissible agri- commodities like Maize, De-Oiled Cake, etc.,

The two wind mills, for which orders were placed by your company with Suzlon, on turnkey basis, were commissioned during the year. While one windmill was commissioned in September 2007, the second was commissioned in November 2007. Full impact of income generation from these wind mills will be available from 2008 – 09 onwards.

### Capital Structure

During the year, the Company issued 2,49,170 Equity Shares of Rs. 10/- each at a premium of Rs.3/- per share against Optional Detachable Tradeable Warrants. The Company has secured the listing and trading permission from BSE and NSE for these shares, except those shares for which d-mat accounts have been frozen by NSDL/CDSL. There has been no other change in the capital structure.

### Dividend

Your Directors recommend for the consideration of the members a dividend of 5% i.e Rs.0.50 per equity share and 5% i.e. Rs.5.00 per Cumulative Redeemable Preference Share.

### Public Deposits

The company has neither invited nor accepted any public deposits during the period under review.
