EXPLANATORY STATEMENT PURSUANT TO SECTION 173 (2) OF THE COMPANIES ACT, 1956

Presently, the securities i.e. equity shares of the company are listed at four stock exchanges at Mumbai, Ahmedabad, Vadodara and Saurashtra Kutch Stock Exchanges. Consequent to technological developments, shares of the company are traded all over India through on-line terminals provided by The Bombay Stock Exchange Limited (BSE). Looking at the record of the past couple of years, it has been found that the company's shares have never been traded on any of the stock exchanges.

In view of this, as per the applicable provisions of the Delisting Guidelines, the Company wishes to get the Equity shares of the Company delisted from one or more stock exchanges out of the three Stock Exchanges viz, Ahmedabad Stock exchange Limited, Vadodara Stock Exchange Limited and Saurashtra Kutch Stock Exchange Limited. No inconvenience will be caused to any of the shareholders residing in the respective regions, since BSE at these regions provide on-line terminals for trading. Further, listing of the company's shares in many stock exchanges apart from not adding any value to the shareholders, results in inavoidable cost, administrative work delay and inconvenience.. As the first step towards this process, the approval of the members of the Company is being sought by way of special resolution as per Delisting Guidelines.

The Directors therefore commend this Special Resolution for the approval of the members.

No Director is concerned or interested in the said resolution.

Annual Report 2006-2007**DIRECTOR'S REPORT**

Appropriations :

Transfer to General Reserves

Balance of Profit/loss carried forward

DIVIDENDS :

Yours directors are unable to propose any dividend on Equity Shares of the company due to insufficient profits.

OPERATIONS :

Your directors are pleased to inform you that the company has been able to maintain satisfactory level of operations and has been able to achieve profit in year under review. During the year under review Sales and Other Income has been posted at Rs.757.39 lacs and the company has earned Gross Profit of Rs.70.07 lacs. After Depreciation of Rs.19.25 lacs and Finance Charges Rs.23.89 lacs, the company has earned Net Profit of Rs.22.53 lacs after provision for taxation. Your directors are optimistic of achieving better results in the coming years.

STRATEGY, OUTLOOK AND MARKET :

The main product of the company continues to be Greig Belting Fabrics for the manufacturing of Conveyor belts. However, with the implementation of the In-House RFL Dipping Plant, the company over the second half of the year started concentrating on the sale of Dipped Belting Fabrics, which it got dipped on job-conversion basis at Nirlon. This was done with a view of gaining acceptance as vendors to various Conveyor Belt manufacturers well before the inception of the company's own plant. The company also gradually started reducing its job-conversion weaving activity with a view to zeroing it out by the new financial year. I am happy to say that the dipped fabrics of the company have also gained good acceptance from the customers. The volume of dipped fabric sales has accordingly quite evidently shot up this year with the commercial inception of the in-house dipping plant. The market horizons continue to look very bright. In spite of the increase in the International raw material prices and the reduction in the margins, the company sees a very large onwards growth in the volumes of business, bringing about an overall increase in the net revenues and profit. With the buoyant growth, both in the Automobile as well as the Infrastructure sector, practically every tyre company as well as every Conveyor Belt company in India is doubling capacity. This should assure a certain growth of the company - Specially considering the fact that there are a selected few established manufacturers in this field.

Sanrhea Technical Textiles Limited

EXPANSION CUM DIVERSIFICATION :

Your Directors are pleased to inform you that over the year the company has successfully completed the installation of its RFL Dipping Plant. It's a matter of pride to inform you that this certainly is the most modern and advanced installation in the country. The plant has been designed to not only dip Belting Fabrics , but also Chafer Fabrics for tyres, Diaphragm Fabrics for Brakes, and Impression and Float Fabrics. Ever since June 07 the company has been actively promoting the development and marketing of all these new and value added products. Over the coming year the company plans on expanding its weaving and twisting capacity to match up with its installed dipping capacity of Apx. 120 tons per month.
