PERFORMANCE REVIEW

Despite the difficult conditions in Gujarat, the average sale price during the year improved by about Rs. 9 per bag over the previous year. Sales were lower at 9,78,271 tonnes as against 10,78,159 tonnes in the previous year, but the Company has strengthened its hold in the more lucrative retail markets.

The Company has been in the process of developing other markets alongwith the coast of India and during the year, has increased sales in Mumbai from 58,000 tonnes to 1,41,000 tonnes and in Kerala from 23,000 tonnes to 44,000 tonnes. A strategic presence has also been maintained in other markets such as Rajasthan.

The sales tax exemption enjoyed by the Company expired in March, 1999 and has had an impact of Rs. 207.2 million on the profitability compared to the previous financial year.

PROJECTS

The Company's Modernisation project was completed at the end of August, 2000. Construction of the 1.1 million tonne expansion is presently underway and the plant is expected to start commercial production towards the end of the current financial year.

The Jetty which is being constructed at the Porbandar port will be commissioned in October, 2000 and will reduce the cost of transporting cement/clinker by sea to Mumbai and the Southern Markets

as well as for export from the current year.

The Company also commissioned a D.G. set of 6.4 M.W during the year and has placed orders for a further 2 D.G. sets of 6.4 M.W each. These are expected to be commissioned in the next financial year.

EXPANSION

The Company's project to increase capacity by 1.1 million tonnes at Ranavav, is under progress. Orders have already been placed for items having long delivery period and the plant and machinery is expected to be received at site in the beginning of 2001.

FUTURE OUTLOOK

The Government has initiated various measures to boost the demand for housing and increase investments in infrastructure. These steps along with a higher targeted GDP growth rate will most likely result in demand for cement growing at over 10 percent in the coming years. Prices of cement in many markets have begun to move up and should firm up considerably from October onwards.

DIVIDEND

In view of the loss for the year under review, the Directors express their inability to recommend any dividend.

FUTURE PLANS

Apart from progressing in the 1.1 million ton Expansion project, the Company is considering investments in developing infrastructure for transport and delivery of cement in other coastal markets like Maharashtra and Kerala. The Company's investments in captive power generation would help in reducing cost of production. The Company is also looking into possibilities of obtaining contracts for providing Management Services for operation of cement plants outside Gujarat.

ENVIRONMENTAL PROTECTION

The Company has continued its efforts to upgrade its Pollution Control equipment in line with its philosophy to bring emission levels below 50 mg/NM³ for the whole plant.

CONTRIBUTION/DONATION

During the year under review, the Company has made contributions of Rs. 2,30,297 (Rs.1,75,297/- to the Chief Minister's relief fund for welfare of Jawans affected in Kargil War, Rs. 50,000/- to Brihad Bharatiya Samaj & Rs. 5000/- to Save the children fund.)
