EXPLANATORY STATEMENT:

Item No. 6

The Company had issued and allotted 42,00,000 Partly Convertible Debentures (PCDs) of Rs. 150/- each on Rights basis and 8,07,500 PCDs of Rs. 250/- each to Public through prospectus in November, 1993. Out of Rs. 150/- and Rs. 250/-, Rs. 50/- was converted into one equity share of Rs. 10/- each of the company at a premium of Rs. 40/- per share and the balance amount of Rs. 100/- and Rs. 200/- remained as one Non Convertible Debentures (NCD) portion 'B' thereof respectively aggregating to Rs. 58.15 crores. Some debentures were forfeited for non payment of allotment money and the outstanding amount remained at Rs. 57.97 crores.

As per the terms of issue, the debentures were to be redeemed by November 27, 2000 and November 11, 2000 respectively. However, due to severe drought in the State of Gujarat where main market of the company is located, the company incurred heavy cash losses and therefore could not repay the debentures and could not pay part of the interest on debentures on due dates. Therefore, a meeting of the debentureholders was convened on 12th April, 2001 where it was unanimously resolved that the debentureholders shall have an option either to extend the repayment of Debentures or ask for repayment thereof with interest due thereon. The debentureholders agreeing for roll over shall be repaid in three

equal installments on September 30, 2003/4/5 and the debenture shall carry interest @ 14.5% p.a. (subject to deduction of tax at source as may be applicable). Interest for the period November 27, 2000/November 11, 2000 to September 30, 2002 to be paid on September 30, 2002, thereafter each installment together with simple interest will be paid annually on September 30, 2003/4/5. The debentureholders were further given an option to convert their overdue interest as on maturity date into either Optionally Convertible Cumulative Preference Shares (OCCPS) carrying dividend @ 13% p.a. or to convert the same into loan instrument carrying interest @ 13% p.a. as per the scheme A or B detailed hereunder:

Scheme 'A'

18% Secured Redeemable Non Convertible Debentures (Part B) of Rs. 200 and Rs. 100 each allotted by the Company on 27.11.1993 and 11.11.1993 respectively (hereinafter referred to as "18% NCDs") will be payable in three equal installments on September 30, 2003/4/5 from the existing repayment date in November, 2000 and rate of simple interest on the said 18% NCDs when opted for reschedulement by the debenture holder shall be 14.5% p.a. (subject to deduction of tax at source as may be applicable). Interest for the period November 27, 2000/November 11, 2000 to September 30, 2002 to be paid on September 30, 2002, thereafter each installment will be paid annually on September 30, 2003/4/5.

25% of the unpaid simple interest upto the date of maturity to be paid on or before June 15, 2001 or such other date as may be mutually agreed. The balance 75% of the unpaid simple interest amount as on 27/11/2000 or 11/11/2000 will be converted into OCCPS carrying dividend @ 13% p.a., subject to necessary approvals. The OCCPS will be redeemed on 31st March, 2003. In case the company is unable to redeem the OCCPS on March 31, 2003, the holders will have an option of converting unpaid amount of OCCPS alongwith unpaid accumulated dividend into Equity Shares of Saurashtra Cement Limited at minimum SEBI formula/guidelines price then prevailing, subject to necessary approvals.

Scheme 'B'

18% Secured Redeemable Non Convertible Debentures (Part B) of Rs. 200 and Rs. 100 each allotted by the Company on 27.11.1993 and 11.11.1993 respectively (hereinafter referred to as "18% NCDs") will be payable in three equal installments on September 30, 2003/4/5 from the existing repayment date in November 2000 and rate of simple interest on the said 18% NCDs when opted for reschedulement by the debenture holder shall be 14.5% p.a. (subject to deduction of tax at source as may be applicable). Interest for the period November 27, 2000/November 11, 2000 to September 30, 2002 to be paid on September 30, 2002, thereafter each installment will be paid annually on September 30, 2003/4/5.

25% of the unpaid simple interest as on the date of maturity to be paid on or before June 15, 2001 or such other date as may be mutually agreed. The balance 75% of the unpaid simple interest as on 27/11/2000 or 11/11/2000 will be converted into 13% funded interest term loan, repayable on 31.3.2003, together with interest due thereon, subject to necessary approvals. In case the company is unable to repay the funded interest term loan on 31.3.2003, the lenders shall have an option of converting the unpaid amount alongwith interest due thereon into equity shares of Saurashtra Cement Limited at minimum SEBI formula/guidelines price then prevailing, subject to necessary approvals.

It is now proposed to issue and allot upto 30,074 Funded interest Loan Instruments of Rs. 100/- each aggregating Rs. 30,07,400 carrying interest @ 13% p.a. repayable on 31.3.2003 together with interest. The funded interest term loan together with interest due thereon shall be paid on 31.3.2003. The proposal to issue OCCPS/Loan Instruments was approved at the last AGM of shareholders held on 26th February 2002 including the above loan instruments. The same could not be completed within 90 days as required under SEBI guidelines for issue of Preference Shares and hence placed again for member's consideration.

As required under Guidelines for Preferential Issue of Securities Exchange Board of India (SEBI);

1. Identities of the proposed allottees are New India Assurance Co. Ltd --- 20,942 and United India Insurance Co. Ltd --- 9,132 Loan Instruments.

DIRECTORS' REPORT

Dear Members,

The Directors present the 45th Annual Report along with the audited accounts for the year ended 30th June, 2002.

The year 2001-02 was a year of mixed fortunes. During the year under review, the domestic cement consumption increased by 10.89 percent (as against a decrease of 2.18 percent in the previous year). The Gujarat cement market, which had suffered major setbacks in the previous 3 years on account of two successive years of drought followed by the devastating earthquake, saw a resurgence and consumption increased by 12 percent (as against reduction in demand by about 25 percent in the previous two years). Demand picked up post Diwali and consumption registered healthy growth upto February 2002. The construction codes for earthquake-affected areas were finalized around November 2001 and consumption increased by over 50 percent during the period December 2001-February 2002. Cement prices continued to be depressed as capacity continued to remain far in excess of the demand.

Demand and consequently price realizations declined after the tragic riots and deterioration in the law and order situation in the state of Gujarat from March 2002. As a result, the consumption for the period March - June 2002 remained subdued in major urban centres.

FINANCIAL RESULTS

The highlights of the financial results of the corporate Financial Year ended 30th June, 2002 are:

	2001-2002 Current Year (Rs. millions)	2000-2001 Previous Year (Rs. millions)
Sales	2184.56	1851.69
Other Income	122.64	108.96
Gross Profit	153.22	101.63
Net Interest	279.64	288.02
(Loss) before Depreciation	(126.42)	(186.39)
Depreciation Miscellaneous Expenses Written Off and Losses of Subsidiaries	214.83	173.45
Net (Loss) before tax & prior year adjustments	(341.25)	(359.84)
Deferred Tax credit & prior year adjustments	61.77	(18.74)
Net (Loss) after tax (after adjustments for earlier years)	(279.48)	(378.58)

PERFORMANCE REVIEW

Production and Despatches :

The volume of cement and clinker production during the year was 1.08 Million Tons and 0.84 Million Tons respectively (registering a growth of 48 percent and 18 percent respectively over the volumes in the Previous years). The total despatches of 1.13 Million Tons (0.84 Million Tons cement and 0.29 Million Tons clinker) were higher than those for the Previous year by about 35 percent. This was in spite of the fall in demand for the period March-June 2002. In April 2002, the company despatched 0.14 Million Tons of cement and clinker, which is the highest achieved since inception.

Cost Reduction :

The company increased the use of Pet Coke (which is cost effective and available indigenously as against high cost imported coal) to over 50 percent thereby resulting in significant saving in the manufacturing cost. Tight controls coupled with productivity improvements and close monitoring saw decrease in power consumption to 96.97 kWh/Ton of cement (104.15 kWh/Ton in the Previous year) and fuel consumption to 784 kcal/kg of clinker (793 kcal/kg in Previous year).

**Saurashtra
Cement
Limited**

Marketing :

The company's major thrust during the year was to revitalize its position in its primary market of Gujarat. During the year under review, the company's sales in Gujarat increased from 0.64 MnT to 0.74 MnT. Due to lack of mechanization facilities at Porbandar jetty and consequently high transportation costs, cement sales in other domestic markets were restricted to the bare minimum required to maintain a token presence in these markets. Export markets have shown signs of recovery and the company has exploited this opportunity and exported 0.11 MnT of clinker during the year. Clinker sales during the year (incl. Exports) increased by 156 percent from 0.11 MnT to 0.30 MnT.

Jetty operations :

The company has made a significant headway in its jetty operations at Porbandar. Clinker loading rate of over 12000 Tons per day has been achieved in spite of the non-availability of mechanized loading arrangements. During the year 0.38 MnT of cargo was handled including 0.31 MnT of captive cargo.

PROJECTS

The company had embarked on an expansion programme to increase the capacity of the plant from 1.3 MTPA to 2.4 MTPA. The company also proposes to set up sea transport infrastructure so as to gain competitive access to other coastal deficit markets which will help the company to reduce its dependence on single market. Towards this, the company has constructed a jetty at Porbandar and is in the process of mechanizing the same. The jetty and other infrastructure will be capable of handling bulk cement, clinker and coal. The company has also placed orders for 2 Captive power plants in

order to reduce the dependence on the high cost power from the State Electricity Grid.

Unfortunately, the cash disbursements from the lead institution, IFCL, were not forthcoming on account of the liquidity constraints faced by them and therefore significant headway could not be made on the project. However, the project is expected to be completed in 2003-04.

FUTURE OUTLOOK

Considering the past consumption patterns and growth rates, a demand growth of 12 percent per annum is likely to continue. The massive reconstruction work taken up by the Government and Private Sector post earthquake and the restart of work on the Narmada Canal, should result in demand increasing substantially. Work is also progressing on the Golden Quadrilateral Highway project at a hectic pace and will give an impetus to the demand. Water of the Narmada canals have started reaching remote areas of Gujarat and will reduce the dependence on the monsoon thereby improving agricultural production. This in turn will help in sustaining demand growth.

It is estimated that the consumption in 2002-03 may be much higher than the normal growth rates of 12 percent as the projects, which were incomplete on account of water scarcity will be completed in addition to the new ones being undertaken. Moreover, the Sales Tax on cement in Gujarat has been reduced from 16.5 percent to 8.8 percent (including surcharge) and the cement to be used in reconstruction work will be exempt from Excise Duty and Sales Tax, which will provide the much necessary boost in the cement demand in Gujarat.

The scenario is already changing and the consumption in Gujarat in

the first Quarter (July-Sep 2002) increased by 15 percent over the consumption in the corresponding period of the Previous Year. It is expected that the cement demand will further pick up, post monsoon from November 2002 onwards.

DIVIDEND

In view of the loss for the year under review, the Directors express their inability to recommend any dividend.

ENVIRONMENTAL PROTECTION

The company has continued to maintain all facilities so as to comply with all statutory regulations as well as norms prevailing in most modernised cement plants.

FIXED DEPOSITS

As on 30th June 2002 deposits of Rs. 1,15,000 from 14 depositors have remained unclaimed. Subsequently Rs. 45,000 of deposits have been repaid to 5 depositors, leaving an unclaimed balance of Rs. 70,000 by 9 depositors.

AUDITORS' OBSERVATIONS
