**OPERATION**

It has been a difficult year for our operations. Production and sales both were marginally lower at 1.55 lac sheets. (1.63 lacs last year) and 1.39 lac sheets (1.41 lacs last Year) respectively. Conditions of general slump worsened due to political instability, tighter money market and fall in Asian currencies. Crockery and Ceramic industries, which are our main buyers continued to remain badly affected. With new manufacturing facilities set up in small scale and increased supply of cheaper transfers, market was highly competitive. Prices had to be lowered and accordingly finished stock has been revalued. Cost reduction measures were taken to confine the operating loss.

**MARKET AND FUTURE PROSPECTS**

To combat the competition and lower prices available, sources for supply of indigenous paper and colours have been developed. Also quantity based contracts are being developed with important users and dealers which are expected to improve your Company's sales in the current year. Approach has also been made for transfer Printing on stainless steel. It is expected that your Company should be able to do better in the Current Year inspite of prevailing slump and monetary crisis.
