DIVIDEND

Your Directors are pleased to recommend a dividend of Re. 0.80 (20%) (previous year Re. 0.60 (15%)) per share on paid-up equity share capital of the Company for the year under review.

GENERAL DESCRIPTION

Your Company is in the highly creative Ceramic/Glass Fashion Accessories Manufacturing Industry. Now these concepts are not new rather a good user base has been created to continue the growth possible.

OPERATION

Sale of Transfer Division during the year increased to Rs. 838.69 lac (net of excise) from Rs. 789.09 lac (net of excise) in the previous year, registering a growth of 6.29%. Likewise the sale of Decorated Tiles Division during the year increased to Rs. 3241.76 lac from Rs. 2741.04 lac in the previous year reflecting a growth of 18.27%. A Fully Automatic Printing Machine has been installed to increase the capacity of Transfer/Decals in Unit - 1, Kassar. It enhances our annual production capacity by 7.2 lac sheets.

To cater to the demand of larger format tiles in the Southern and Western Regions, suitable Printing Machinery has been installed at Unit - 2, Kadi which improved the serviceability substantially.

The growing demand of Glass Highlighters, Polishing and Sand Blasted Decorated Tiles is presently being met by outsourcing. Installation of machineries for in-house production of these tiles would be considered depending upon the market scenario in coming years.

MARKET AND FUTURE PROSPECTS

Ceramic Transfer Sheets

Fast Changing Technological scenario is making an impact in the Decal Markets. Direct Printing on Cylindrical Ware is replacing Decal at a fast pace especially in Glassware. Captive capacity built-up by a major customer is posing a serious challenge.

Your Company is responding to both the challenges by adding new customer and increasing innovative product offering to existing customers.

The threat faced by us in this business segment was because of Captive Printing Plant put up by our major buyers. However, the Company has developed small buyers to make up the losses incurred and to continue such efforts for betterment in this segment.

SCHABLONA INDIA LIMITED

Decorated Tiles

With the launch of better Stylish and Innovative products, your Company continued to grow during the year under review and also anticipates to maintain the growth in the ensuing years.

Trading

Our "KERASPANA" Premium Brand Tiles and launch of very good and attractive concepts resulted in a big growth in Trading Division and the response of Glass Highlighters was considerably better and a much better response is expected in coming years.

MANAGEMENT DISCUSSION AND ANALYSIS

Operating results for the period, market and future prospects have been discussed in the Directors' Report. A further overview of Company's business by the management with a discussion on the Company's areas of strength and weakness, the opportunities that are available and the threats and concerns that are being experienced are given below.

Industry Structure & Development

Construction Industry continues to be in the high growth phase and so is the demand for high end products. With the initiatives that your Company has taken to foster creativity and innovation in the field of designer tiles, its leadership stands firmly established.

The trading vertical is making rapid strides to supplement the manufacturing capabilities of the Decorative tile division. Brand "Keraspana" which was launched last year has gained a firm foothold in the highly competitive environment and all set to grow exponentially in the years to come.

The transfer division has added the glass highlighter range and polished highlighter range to its offering but recent development especially in the digital printing on tiles has had an adverse impact on the growth of this segment. The captive transfer manufacturing facilities put up by major players in the crockery segment is affecting the growth of the transfer division in the short run, but again the buoyancy of the consumer segment and fact that Schablona is way ahead of competition in development of creative designs gives hope of accelerated growth in the years to come. Early indications of the same come from the fact that the players who have put up huge captive capacities still keep coming to Schablona for certain designs.

"Overall the outlook for the Company is quite positive for growth, both in terms of top-line as well as bottom-line"

Risk Factors and its Mitigations

- 1. Obsolescence of Designs:** Designer Tile being a fashion product, design obsolescence is a burning issue for this business. The Company is organizing itself to go mostly for made to order manufacturing to combat this problem, and is strengthening its forecasting methods to be more closer and in sync with market changes.
- 2. Rising Cost of Inputs, Energy & Transportation:** All the three factors have a major bearing on the profitability. The Company is taking effective steps for improvements in efficiency, cost cutting and price adjustments, wherever, possible.
- 3. Competition with Un-Organized Sector:** This sector poses threats primarily at the entry level, bulk selling products thus impacting topline, the Company is working on to fight this challenge by leveraging its capabilities to produce better designs through its state of the art studios and delivering high quality products at competitive prices using advanced machineries and technology.

Internal Control Systems

Budgetary system of control implemented partly and by the year end full compliances will be made. An internal group of departmental heads have been made into a Schablona Strategic Group and every new initiative or expansion is discussed there and decisions are taken after thorough discussion in the group. Regular audit of systems & accounts of the Company is carried out by the Internal Auditor and it is ensured that Internal Control Systems are adequate and reliable and there is proper compliance of all regulations & obligations. It has also been ensured that all data necessary for an effective internal control and analysis are available at various levels of management.

Human Resources & Industrial Relations

The Company continues to have cordial relations with its staff & workers who are continuously being trained to acquire and develop necessary skills for conducting business of the Company in a better way. The Company is employing close to 228 employees as on 31.03.2011. Industrial relations during the year continued to be cordial.
