‘STRENGTH LIES IN
DIFFERENCES,
NOT IN SIMILARITIES.’

Stephen Covey

At SeQuent, we provide world-class solutions in pharmaceuticals and speciality chemicals sectors. Since our inception, we have created value through sustained investments in diverse yet synergistic capabilities, intellectual capital and scalable infrastructure. In the last three years, we have evolved from primarily an active pharmaceutical ingredients (APIs) manufacturer to an integrated pharmaceuticals company having presence in human and animal APIs, veterinary formulations and CRAMS (Contract Research and Manufacturing Services). On the other hand, we have also scaled our speciality chemicals vertical by expanding our product profile, to cater to different industries. Our diverse and scalable business model will not only enable us to achieve accelerated pace of growth but also protect stakeholders' value during any unforeseen downturn in specific segments. At SeQuent, we call this ability to insulate ourselves from circumstances - ***immunity in diversity***.
