2. Dividend:

Your Directors recommend a dividend of Rupees 1.20 per Equity Shares on 1,74,98,433 equity shares of Rs.10 each aggregating to Rs. 245.67 Lacs(including dividend tax) for the financial year ended 31st March, 2010 which if approved at the ensuing Annual General Meeting, will be paid to (i) all those Equity Shareholders whose names appear in the Register of Members as on 23rd August 2010 and (ii) to those whose names as beneficial owners are furnished by the National Securities Depositories Ltd., and Central Depositories Service (India) Ltd.

3. Management Discussions and analysis Report –

(i) Financial Performance:

Your company posted a net profit of Rs.787.94 lacs during the current year as compared to the losses of Rs.731.61 lacs posted during the previous year. This was due to improved and favorable market conditions that prevailed consequent to the stimulus packages announced by the Government of India and other fiscal measures initiated by the Reserve Bank of India.

(ii) Trend in Indian Economy & Financial Markets:

The global recession that set in during the previous year though continued to haunt the western countries, the Indian economy bounced back from the slump it faced during the previous year thanks to the stimulus packages and other fiscal measures initiated by the Government of India. The GDP growth that was on the downside recovered to post a moderate increase of 7.2% during the year under report and with a projected growth of 8% during the ensuing year, the Indian economy looks well poised to keep its momentum of growth. The Index of industrial production (IIP) recorded an admirable growth at an average of more than 15.5% during the last quarter of the financial year and it was also broad based with 14 out of 17 industrial groups recording accelerated growth during the year. However, the inflation has been a source of continuous concern dragging down the benefits of industrial output with the food inflation touching an all time high of 17.5% during the current year under report.

The capital market witnessed increased trading volumes throughout the year with the market index (BSE) recording a level as high as 18,000 before it retreated due to uncertainties in the European economy. With the inflow of Foreign investment gaining momentum, the foreign exchange reserves also increased considerably crossing 280 billions USD once again. However with the Government borrowings on upsurge to meet the stimulus packages, the yields on Government borrowings went up from 6.2% to 8.1% thereby the financial system witnessed an increase in the interest rates especially on commercial lending and realty sector lending. As a consequence, the trading volume in securities market during the current year also continued to show an erratic trend.

(iii) Business Review:

The stimulus packages of the Government resulting in buoyancy in the stock market enabled your company to regain the valuation of the existing stocks besides posting trading profits during the year under report. With a tighter control on administrative expenses, your company was able to reverse the negative trend during the previous year and achieve a positive result as reflected in the financial statements for the year under report.

Your company's associate, Antique Finance Private Limited. have also achieved good results and thus maintained a positive trend in their working results.

(iv) Opportunities and Threats:

The Government of India has announced series of fiscal measures to achieve a GDP growth of 8% for the ensuing year and also reduce the inflation through appropriate monetary measures. Although the western market especially some of the European countries have been posing concern on their economic stability that could trigger a cascading effect on the global economy, the resilience of the Indian economy as seen in the past augurs well for the stability of the financial markets during the current year. The Indian corporate sector has also been showing encouraging results with better performance that should contribute for better valuations and market capitalization during the ensuing year also.

Nonetheless if past trends are any indication, the capital market activities in which your company is predominantly engaged could face aberrations depending on the global trends both economic and political as the markets are to some extent driven by investment by Foreign Institutions.

(v) Segment-wise – Product-wise reporting:

Your company is mainly engaged in the business of investment activities and all other activities are revolving around the main activity, and as such there are no separate reportable segments.

(vi) Outlook:

Your company will spare no efforts to improve the profitability and the shareholders' wealth though there is a heavy dependency on the market trend in the equity segment of the capital market. Your company expects the general market conditions to improve and would strive hard to take advantage of the situation as and when opportunities arise.

(vii) Risks and Concerns:

Your company's activities which are essentially in the capital market segments is fraught with inherent risk and the downward trend in the growth of global economy resulted in significant erosion in the value of the investment. While all efforts will be made to safeguard further erosion, your company will exercise due caution and care to ensure that all these concerns are addressed while taking future investment decisions.

(viii) Internal Control Systems and their Adequacy:

Company has in place adequate internal control measures. The requisite management information system is already in place to take corrective measures when required.

(ix) Human Resources:

Your company has adequate trained professionals to manage the affairs of the company in the most prudent manner.

(x) Cautionary Statement:

The Management Discussion and Analysis Report may contain certain statements that might be considered forward looking. These statements are

subject to certain risk and uncertainties. Actual results may differ materially from those expressed in the statements as important factors could influence the Company's operation such as Government policies, local political and economic development, etc.

4 Subsidiaries:

Ministry of Corporate Affairs, Government of India, vide order No 47/168/2010-CL-III dated March 15, 2010 has granted approval that the requirement to attach various documents in respect of subsidiary companies, as set out in sub-section (1) of the Section 212 of the Companies Act 1956, shall not apply to the Company. Accordingly, the Balance Sheet, Profit and Loss Account and other documents of the subsidiary companies are not being attached with the Balance Sheet of the Company. Financial information of the subsidiary companies, as required by the said order is disclosed in the Annual Report. The Company will make available the Annual Accounts of the subsidiary companies and the related detailed information to any member of the Company who may be interested in obtaining the same on any working day except Saturday and Sunday between 11 a.m to 2 p.m. The annual accounts of subsidiary companies will also be kept open for inspection by any investor at the registered office of the Company and that of the respective subsidiary companies. The Consolidated Financial Statements presented by the Company include financial results of its subsidiary companies and associate companies.

Shriyam Broking Intermediary Limited a subsidiary of the Company posted modest operational results during the year under report in view of lower volumes of brokerage generated from Institutional business. The gross brokerage earned during the year was at Rs.162.03 lakhs as against Rs.318.89 lakhs during the previous year resulting in a decline in net earnings before tax to Rs.66.65 lakhs as against Rs102.33 lakhs achieved during the previous year.

The other subsidiary viz. Shardul Commodities International Ltd had surrendered its trading cum clearing membership of Multi Commodity Exchange. Efforts will be made to activate the subsidiary as and when the market situation improves.
