3. Management Discussions and analysis Report :-

(i) Financial Performance:

Your Company has posted a net profit of Rs.265.75 lakhs after tax as against net profit of Rs.339.24 lakhs posted during the previous year. The drop in the profit level is due

to adverse market conditions that prevailed during the year on account of economic slowdown and uncertainties in the global markets.

(ii) Trend in Global and Indian Economy & Financial Markets:

The slackness in the demand in developed economies especially in Europe which narrowly missed acute recession coupled with a general decline in the growth of the trade in goods and services globally had adverse impact on the Indian economy also. Macro Financial Parameters indicated a widening current account deficit and a persistent consumer price inflation, though the fall in the prices of crude oil and gold during the year provided some relief. The inflationary trend was marginally lower at 7.3% with a low of 6% in the month of March, 2013 and the GDP growth decelerated to 5% during the current year from a growth level of 6.6% during the previous year. The decline in the GDP growth was prominently reflected in the agricultural and service sector. The Index of Industrial Production (IIP) was abysmally low at 1% as compared to 2.9% during the previous year largely due to raising cost and infrastructure constraints. The capital goods and mining sector showed adverse growth due to the prevailing trend as a result of which the corporate results and guidelines for the ensuing year have also been discouraging. The export growth also witnessed a sluggishness though it was expected to pick up during the second half of the year. Though the fiscal deficit was contained at 5.2% of the GDP, the current account deficit has posed a serious challenge as it is much above the threshold level of 2.5%.

Though the Government has been attempting to bring more reforms in the financial sector, lack of measures for speedy implementation has made the outlook for investments muted.

(iii) Business Review:

As a result of the slump in the economic growth during the year under report, your company could not sustain the same level of growth momentum achieved during the previous year. The capital market was highly volatile and your company's core business being that of investments in capital market instruments, the results showed a marginal decline in profitability levels as compared to the previous year. However, your company still managed to post a positive result and your associate company, Antique Finance Pvt.Ltd. also managed to post positive results during the year under report.

(iv) Opportunities and Threats:

The continued economic slowdown affecting the GDP growth which is projected at about 5.7% for the ensuing year and poor guidance in corporate results could pose serious challenges during the ensuing year notwithstanding sizeable influx of funds through FIIs. The uncertainty in the capital markets are likely to cause aberrations in terms

of achieving desired levels of profitability and growth. The ensuing year therefore could be a challenging time and your company's performance will therefore be dependent on extent to which the above said factors would influence the general economic growth.

(v) Segment-wise – Product-wise reporting:

Your company is mainly engaged in the business of investment activities and all other activities are revolving around the main activity and as such there are no separate reportable segments.

(vi) Outlook:

Your company will spare no efforts to improve the profitability and the shareholder's wealth though there is a heavy dependency on the market trend in the equity segment of the capital market. Your company expects the general market conditions to improve and would strive hard to take advantage of the situation and also when opportunities arise.

(vii) Risks and Concerns:

Your company's activities which are essentially in the capital market segments is fraught with inherent risk and the downward trend in the growth of global economy resulted in significant erosion in the value of the investment. While all efforts will be made to safeguard further erosion, your company will exercise due caution and care to ensure that all these concerns are addressed while taking future investment decisions.

(viii) Internal Control Systems and their Adequacy:

Your company has in place adequate interest control measures. The requisite Management Information System is already in place to take corrective measures when required.

(ix) Human Resources:

Your company has adequate trained professionals to manage the affairs of the company in the most prudent manner.

4. Subsidiaries:

Ministry of Corporate Affairs, Government of India, vide Circular No: 5/12/2007-CL-III dated 8th February 2011 has granted exemption that the requirement to attach various documents in respect of subsidiary companies, as set out in sub-section (1) of the Section 212 of the Companies Act 1956, shall not apply to the Company provided certain conditions as mentioned in the circular is fulfilled. Accordingly, the Balance Sheet, Statement of Profit and Loss and other documents of the subsidiary companies are not being attached with the Balance Sheet of the Company. Financial information of the subsidiary companies, as required by the said circular is disclosed in the Annual Report. The Company will make available the Annual Accounts of the subsidiary companies and the related detailed information to any member of the Company who may be interested in obtaining the same on any working day except Saturday and Sunday between 11 a.m to 2 p.m. The annual accounts of subsidiary companies will also be kept open for

inspection by any investor at the registered office of the Company and that of the respective subsidiary companies. The Consolidated Financial Statements presented by the Company include financial results of its subsidiary companies and associate companies.

Shriyam Broking Intermediary Limited, a subsidiary of the company posted marginally improved results as compared to the previous year. This is despite high volatility in the capital market that led to low brokerage volumes. However, in the later part of the year with the increased activities in the institutional and retail segment, your subsidiary was able to turn the corner and posted a net profit of Rs.8.18 lakhs as against the loss of Rs.20.15 lakhs during the previous year

During the year under review your company sold its entire investment of 5,00,000 fully paid of equity shares of Rs 10/- each held at par in its wholly owned subsidiary named Shardul Energy Limited and consequently the mentioned subsidiary has ceased to be wholly owned subsidiary of the Company with effect from 23rd November 2012.
