The Proposed dividend, if approved at the ensuing Annual General Meeting, would result in appropriation of Rs. 56.16 lacs (including Corporate Dividend Tax of Rs. 8.16 lacs) out of the profits.

**COMMENCEMENT OF SUGAR MANUFACTURING ACTIVITIES AND UNDERTAKING EXPANSION PROGRAMME THEREOF:**

The Sugar Unit of the company was given on lease to Eastern Sugar & Industries Ltd (ESIL) in the year 1995. In the last few years ESIL has been facing financial problems. ESIL had not been able to utilize sugar production facility of 2500 TCD because of bottlenecks in some departments, primarily in the boiler house, and financial constraints. Under the current circumstances a unit of this size is not considered viable and it is necessary to expand the same to a minimum economic size of 6000 TCD, for which ESIL is not in position to raise funds due to default in repayment of dues of the Institutions.

## SHREE HANUMAN SUGAR & INDUSTRIES LIMITED

After due deliberations with ESIL, it had been mutually decided to determine the lease of the Sugar Mill. As per terms, the Company will take over entire gross block of ESIL for which lump sum payment will be made towards part payment. The balance consideration will be paid by the Company in yearly installments. The Company will also pay Block Usage Charges for use of assets of the Mill. The majority of capital expenditure for resuming operations at the Mill has already been incurred by the Company out of its own sources.

The Company has also chalked-out an expansion programme for initially increasing the sugar manufacturing capacity of the said Mill from 2500 TCD to 6000 TCD. The steps for raising need based fund for commencement of the programme are being taken.

Your directors are confident that these steps will increase business activities of the Company significantly followed by significant improvement in its financial performance.

### POWER GENERATION

Your Directors are also pleased to inform you that steps are also being taken to produce electricity for our sugar mill operations. Electric power is proposed to be generated mainly through the burning of bagasse, a primary by-product of our sugar production process. Bagasse is a combustible material which when burned produces steam, which in turn is used to generate electric power. Installation of Co-generation facility at the Sugar Mill with a capacity of 20 MW per hour is being considered.

### CONSTRUCTION ACTIVITIES

Your Company has also taken effective steps to diversifying into the business of construction and selling of residential houses. Mr. B. K. Nopany, the Chairman of the Company has long-term experience of real estate development. The proposed constructions activities are proposed to be financed entirely either out of internal resources or advance from customers.

During the year under review, sale of construction rights stood at Rs. 99.75 lacs compared to Rs. 113.38 lacs during the previous financial year 2007-08.

### SHARE CAPITAL

The Company has allotted on 30.6.2009, 58,00,000 equity shares of Rs. 10/- per share at a premium of Rs. 10/- per share aggregating to Rs. 11.60 crores to the persons, including persons other than existing shareholders of the Company, by way of preferential issue, pursuant to the resolution passed by the shareholders of the Company in their Extra-ordinary General Meeting held on 26.6.2009.

### SPLITTING OF EQUITY SHARES

As reported in the last Directors' Report, the resolution, proposed in the notice of the last Annual General Meeting held on 31st December, 2008, sub-dividing Equity Shares of the Company into the face value of Rs. 2/- could not be carried out at the said meeting in the absence of majority of votes.

### FUTURE PROGRAMMES

After successful implementation of the proposed expansion programme increasing the sugar manufacturing capacity from 2500 TCD to 6000 TCD, the Company has programme for increasing in stages the said capacity to 7500 TCD in the coming years.

The Company, through continuous interaction with foreign agencies, agents and prospective buyers along with regular research through internet, will also take initiatives for availing an opportunity to export sugar, subject to prevailing regulatory conditions in the country. In this process, on the basis of research and interaction with foreign buyers/agencies/agents attempts will also be made through in-house research to develop products of foreign standard and global needs. The management is very hopeful to enter the foreign market soon.
