#### **MANAGEMANT DISCUSSION AND ANALYSIS**

The management of your Company is pleased to present the discussions and analysis on the industry structure, developments, future outlook and operating and financial performance.

#### I - INDUSTRY STRUCTURE AND DEVELOPMENT

#### a) Industry Scenario:

5

2

The per capita consumption of vegetable oil is relatively low in India leaving a scope for market expansion consistent with high disposal income in future. Keeping in view the rising input costs on account of imports, various measures are being taken by the Government to step up the domestic oil seed production and moderate import duties with a view to ensure adequate availability and price stability, taking into account the equitable view towards various stakeholders such as domestic farmers, industry, consumers etc.

#### b) Industry out look:

The introduction of Value Added Tax has brought in the much needed uniformity and transparency in the edible oil industry. The industry is in the process of consolidation with the large domestic and multinational entities having strong business capabilities, efficiencies in logistics, operations in strategic locations and strong consumer focus and seeking opportunities to expand the growing market share.

#### c) Risks and Concerns:

Your company's business is exposed to price fluctuations on its major raw materials with bulk of them being agro based and subject to market price variations during the year. Prices of these commodities continue to be linked to both domestic and international prices, which depend on the various external factors like good monsoon in the country, import/exports, international crop size etc. The setting up of commodity exchange and introduction of commodity futures and other hedge strategies in the country has opened up reasonable opportunities for the industry to hedge and manage the impact of these price fluctuations.

#### II - ANALYSIS & DISCUSSION OF FINANCIAL PERFOMANCE WITH RESPECT TO OPERATIONAL PERFOMANCE

Your company has produced 797.800 Quintals of Crude Oil in comparison to 976.055 Quintals during the previous year. Your Company also produced 6482.100 Quintals of Deoiled Cake in comparison to 7952.339 Quintals during the previous year and also
