**Dividend:**

In the absence of profits, your Directors do not recommend payment of any dividend for the Financial Year 2015-2016.

**State of Company's Affairs:**

Market was edgy and volatile for a major part of the financial year amidst pessimism about growth in the global economy especially after sharp fall in Chinese markets (including Yuan devaluation) which resulted in concerns related to emerging market economies. Moreover status of emerging economies took a backseat with the Fed raising interest rates. With oil touching its lowest level in a decade (~\$30 per barrel), allocation of sovereign funds from the oil-rich countries went down leading to FIIs withdrawing funds from India.

During FY16, FIIs withdrew ₹ 14,172 crores from equity markets after remaining net buyers for the last six years (from FY10-FY15). On the contrary, domestic institutional investors during this period purchased shares worth ₹ 80,433 crores aided by rise in mutual fund inflows. Better penetration into smaller towns and falling interest rate in bank FDs attracted more investors to mutual funds. As a result, AUMs of mutual funds rose 14% to ₹ 13.53 lakhs crores in FY16.

The benchmark Nifty index lost ~9% during FY16 with a majority of the sectors being in the negative zone. PSU Banks was the worst performer with 28% loss as mounting bad loans led to higher provisioning that adversely affected earnings amidst low credit growth scenario. Performance of other prominent sectors were not encouraging either - Auto (down 6%), FMCG (down 0.6%), IT (down 6.4%), Metal (down 18%). Media (6%) and Energy (1.9%) were the only sectors to be in the positive zone.

Economic news for the domestic economy remains mixed with inflation being in the comfort zone of the RBI over the past few months. Controlled inflation coupled with gradually improving index of industrial production growth and forecast of good monsoon this year (after two years of drought) augurs well for an improving domestic economy. While shrinking trade deficit is good news for the economy the continued dip in exports due to global slowdown is really worrisome.

The current market outlook presents a mixed bag with positive and negative factors equally balanced thus supporting an overall view of cautious optimism. The country would stand to gain from a benign outlook on the soft prices of crude and has been one of the biggest beneficiaries of the same in the past year. If the government's attempt of getting the GST bill passed succeeds it will be a game changing reform for the economy.

On balance, it is our view that India will remain a very attractive destination for investors in the long term and therefore it would be ideal for investors who seek to achieve their respective financial goals through active participation in the Indian capital markets. The portfolio has been designed to deliver superior returns over a longer term horizon in the realm of 5 years and beyond as the stocks and sectors within it are clear market winners and segment leaders and offer sustainable and reasonable returns from their businesses.

---

## SHRIRAM ASSET MANAGEMENT COMPANY LIMITED

---

It is our pleasure to declare that the maiden scheme launched by your Company, Shriram Equity & Debt Opportunities Fund (a hybrid equity oriented asset allocation fund) in the year 2013, has declared dividend thrice since inception with dividend of ₹ 1.15 per unit (face value of ₹ 10/-) being the latest in FY 2016 (₹ 0.25 in FY14 and ₹ 1.05 in FY15). Amidst market volatility the consistency in dividend payment was a result of prudent and moderately conservative investment strategy and supports the fund objective of longer term durable superior risk adjusted returns. The fund has delivered return of 25.041% (at the end of March 2016) since inception, marginally behind its benchmark by 1.03% accompanied by lower levels of volatility.

The fund is ideally suited for the small retail saver and common investors whose principal objective is to build long term wealth within an acceptable level of risk and therefore has an ideal investment horizon of three to five years. Equity investors with a medium-to-long term perspective should not be perturbed with the recent volatility as stable and improving macros (moderate inflation, lower current account deficit, a controlled fiscal deficit and India being one of the largest growing big economies), a very low market cap to GDP ratio that has been constantly falling over the last 7 years, and almost reasonable to fair valuations. Thus, retail investors would do well to maintain their exposure to large liquid and high quality stocks through regular small investments for sustainable growth that will outpace inflation.

The fund has ~24% exposure to defensive sectors such as Software, Consumer durables and non-durables, Pharmaceuticals, which acts as cushion in current turbulent period. Though Banks continue to be the sector with maximum weight of 15% in our portfolio, exposure to PSB is a mere 1.4% through SBI. This is significant as the grueling impact of NPA recognition is more in PSBs compared to Private Banks. Stock selection has been done based on impeccable fundamentals in the form of low financial leverage, strong and capable managements, and businesses that were anchored in strong brands in growing developed and regulated markets.

In view of the strong potential of Indian equities and considering the prevailing market scenario, your Company is also in the process of finalizing and filing new schemes that have a complementary objective to our existing offering and address the need of lower risk adjusted stable returns from the idle funds of investors without compromising liquidity.
