## **MANAGEMENT DISCUSSION AND ANALYSIS**

### **GEM & JEWELLERY INDUSTRY OVERVIEW**

The gems and jewellery industry can be classified into various sub segments like diamonds, colored stones, gold and silver jewellery, pearls, etc. However, the two major segments in India are gold and diamonds. India dominates the diamond processing trade with 11 out of 12 diamonds being cut and polished in India. India also dominates the gold and silver consumption globally. The industry holds prominent significance as it is a net exporter and provided employment to 1.3 million people directly and indirectly.

The Indian gems and jewellery industry is one of the fastest growing segments in the Indian economy with an annual growth rate of approximately 15%.

Research indicates that the rural jewellery market in India is set to grow strongly despite the global economic meltdown. Overall sales of jewellery dominated by the plain gold variety in India through 2008 rose by 23 percent over 2007 to Rs. 86000 crores (US\$ 17.6 billion) and rural areas accounted for Rs. 52000 crores (US\$ 10.64 billion). Last year rural areas witnessed a 24 percent growth in gold jewellery sales in terms of value.

The reasons attributed for the growth are (1) The majority of working women in rural India do not invest in stocks and shares or use other investment instruments and they usually invest their surplus money in jewellery (2) The rural families allocate fixed budgets to buy jewellery for weddings and they buy jewellery at this time irrespective of whether gold prices are high or not. (iii) Rural markets are less affected by the global meltdown as they are agriculture-based.

India is the largest diamond cutting and polishing centre in the world; the industry enjoys 60% value share, 82% carat share and 95% share of the world market in terms of number of pieces. In other words, nearly 9 out of 10 diamonds sold world wide are cut and polished in India. India exported cut and polished diamonds worth US\$ 13.02 billion in 2008-09.

### **INDUSTRY OUTLOOK OPPORTUNITIES & THREAT**

What started off as a sub-prime crisis in the US housing mortgage sector has turned successively into a global banking crisis, global financial crisis and global economic crisis resulting in the Great Recession of 2008-09.

The industry has undergone challenging times in the financial year 2008-09. The US slowdown in the second half of 2009 affected the industry greatly and the gem and jewellery sector witnessed a slowdown in exports in the last two quarters of the year. In spite of slow down in the second half the industry achieved flat growth and performed reasonably close to its target of US\$ 21.9 billion.
