GEM & JEWELLERY INDUSTRY OVERVIEW

The gems and jewellery industry can be classified into various sub segments like diamonds, colored stones, gold and silver jewellery, pearls, etc However , the two major segments in India are gold and diamonds India dominates the diamond processing trade with 11 out of 12 diamonds being cut and polished in India. India also dominates the gold and silver consumption globally. The industry holds prominent significance as it is a net exporter and provided employment to 1.3 million people directly and indirectly.

The Indian gems and jewellery industry is one of the fastest growing segments in the Indian economy with an annual growth rate of approximately 15%.

Last year rural areas witnessed a 24 percent growth in gold jewellery sales in terms of value.

The reasons attributed for the growth are (1) The majority of working women in rural India do not invest in stocks and shares of use other investment instruments and they usually invest their surplus money in jewellery (2) The rural families allocate fixed budgets to buy jewellery for weddings and they buy jewellery at this time irrespective of whether gold prices are high or not. (iii) Rural markets are less affected by the global meltdown as they are agriculture-based.
