STATE OF COMPANY'S AFFAIRS

Sintex is a globally-respected conglomerate with a large and growing presence in plastic processing. The Company enjoys a strong presence across diverse sectors and has earned respect for its ability in developing unique solutions that address emerging trends.

It has a global presence through its subsidiaries Sintex NP SAS (Europe) and Sintex Wausaukee Composites Inc. (the US). Its Indian subsidiaries include Sintex-BAPL Ltd. for custom moulding and Sintex Prefab and Infra Ltd. which undertakes EPC contracts for various infrastructure projects across the nation.

PERFORMANCE OF SUBSIDIARIES

Sintex has established a strong presence in the custom moulding space in India and across the globe through its subsidiaries Sintex NP Group (Europe), Sintex Wausaukee Composites Inc. (US) and Sintex-BAPL Limited (India) (formerly Bright Autoplast Ltd.). These companies provide highly-engineered custom moulding solutions to large global and Indian brands with a presence in diverse sectors. The Group has a global manufacturing presence with facilities across 9 nations in 4 continents that house cutting-edge technology.

Custom-moulded components are made from new-age composites (combining plastics and fibers with glass, carbon, and other materials). Key customers comprise aerospace, transportation, renewable energy and defence sector players. These products enjoy steady demand because of their strength, tenacity, thermal and electrical conductivity and corrosion resistance. Also, because composites are lightweight, they have witnessed an enormous surge in demand especially in the aerospace and transportation verticals.

Sintex-BAPL Limited: The Company's custom moulding operations can be classified into two segments 1) develops application-specific standard products catering to diverse sectors and 2) develops customer-specific products primarily catering to the automotive sector.

Application-based custom moulding: This is the flagship vertical accounting for more than 66% of the Company's revenue. Under this vertical, the Company has developed niche solutions for critical applications which are high on the Government's priority list namely water management, sewerage management warehousing and power theft, among others. As such majority of the orders come from government agencies and government authorities. Increasing awareness and growing acceptability of the Company's products across states is driving business volumes. In addition, the Company is focused on expanding its presence with India Inc. with considerably success. As a result, new customer addition and strengthening business relations with existing corporate is also making a heartening contribution to business growth. Revenue from this segment stood at ₹3941.83 crs. in F.Y. 2016-17.

Customer-specific custom moulding: The Company's growth remained subdued as the topline grew by about 13% while EBIDTA increased by about 6.5%. This was owing to a largely depressed automotive sector where growth in all its product verticals remained lesser than estimates. The growth was further dampened by short-term policy disruption namely demonetization which significantly impacted sales in the second half of the year under review.

Even as the business environment remained sluggish, the Company implemented important strategic initiatives – capacity enhancement and capability addition - which will widen the Company's opportunity canvass and promises to sustain profitable growth over the medium term.

Sintex NP: In 2016, the group activity has been quite strong in most of the companies, driven by the dynamic market of both automotive and aeronautics sectors and the slight recovery of the construction market. While the topline improved by about 4% over the previous year, net profit leapfrogged by more than 40% - an outcome of improved operational efficiency and man-machine productivity.

Sintex Wausaukee Composites, Inc.: The Company registered a heartening performance with a growth in topline and bottomline – catalysed by a healthy growth in the fourth quarter of the year. This was due to the successful implementation of a near term strategic blueprint - the benefits of these measures are likely to cascade into robust growth in business and profitability over the medium term.

Sintex Prefab and Infra Limited: Revenue from this segment stood at ₹2052.85 crs. in F.Y. 2016-17. This increase was owing to the completion of the Ujjain Kumbh Mela Project.

During the year, the Company has received various projects for constructions and supply of prefab toilets under the "Swachh Bharat Mission".

During the year, the Company also received the prestigious project for the commissioning of Phase –II of the spinning project of Sintex Industries Limited. In addition, the Company has a healthy order book of prefab solutions to be executed during the current year. These promise healthy business growth in the coming year.

CHANGES IN SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES/WHOLLY OWNED SUBSIDIARIES

During the year under review, Sintex-BAPL Limited became the Wholly Owned Subsidiary of the Company due to divestment of shareholding by Sintex Industries Limited.
