MANAGEMENT DISCUSSION AND ANALYSIS

(Forming part of Directors' Report)

The Economic Survey 2011-2012 has thrown emphasis for Investments in infrastructure to the tune of over US \$ 1 trillion during the Twelfth Plan 2012-17. The Planning Commission also projected that at least 50% of this investment will come from the private sector as against the 36% anticipated in the Eleventh Plan

Twelfth Five Year Plan envisages investment in Infrastructure (defined as electricity, roads and bridges, telecommunications, railways, irrigation, water supply and sanitation, ports, airports, storage and oil-gas pipelines) will need to increase from about 8.0 per cent of GDP in the base year (2011-12) of the Plan to about 10.0 per cent of GDP in 2016-17. The total investment in infrastructure would have to be over \$ 1 trillion during the Twelfth Plan period. Financing this level of investment will require larger outlays from the public sector, but this has to be coupled with a more than proportional rise in private investment.

With the consistent attention being given to infrastructure development and the increasing demand of housing in the country, the Construction sector has been growing at a compounded annual growth rate (CAGR) of about 11.1 per cent over the last eight years. The Construction sector accounts for around 9.0 per cent of GDP today.
