**Explanatory Statement pursuant to Section 173(2) of the Companies Act, 1956.**

**Statement in Respect of Item No. 5**

As per the terms appointment of Sri N. Rajender Prasad as Joint Managing Director ends on 20th December, 2001. Hence there is need to re-appoint him for a further period of 5 years i.e., upto 20th December, 2006.

**SOUTHERN MAGNESIUM AND CHEMICALS LIMITED****DIRECTORS REPORT**

Your Directors have pleasure in presenting the 16th Annual Report and the Audited Accounts for the year ended 31st March, 2001.

**FINANCIAL REPORT / OPERATIONS :**

As anticipated in last years report there has been no improvement in primary magnesium metal market. As a result the company had to further reduce its selling price to the existing customers which resulted in a lower net realisation of only Rs.173.59 per Kg as compared to Rs.212.81 per kg in last year. As the company did not have substantial orders, the company had to reduce the sales drastically to only 100.986 MT. This resulted in very little contribution towards fixed costs while there has been an increase in interest costs due to further borrowing consequent to substantial losses, making the situation worse. Production of corbondioxide could not be increased substantially as a result of lower gas consumption since fewer furnaces were in operation.

In order to avoid future losses and with an acceptance of the fact that the future for magnesium industry and its downstream products will continue to be bleak for the foreseeable future, the company has downsized its operations on a semi permanent basis. The contract for natural gas which is on a take or pay basis has been reduced by 50%, as also the contracted demand for electricity with APSEB has been reduced. A very substantial part of the permanent and contract labour force has been permanently laid off and all dues to them including gratuity and leave encashment have been paid and these amounts have been taken into revenue accounts.

Depreciation for the year amounting to Rs.30,23,253/- has not been provided in view of low capacity utilisation. Further the company had decided to write back the depreciation provided for the years 1996-97 and 1997-98 also.

Provision for gratuity for existing staff will be made as and when it becomes due.

**CURRENT YEAR**

The current magnesium market including the downstream products like powder is entirely imports driven and your company is limiting its activities in magnesium sector to only those orders where the margins are reasonable and make some contribution to overheads. In fact the major overhead burden to the company is the interest payable to the financial institutions (APSFC) and Indian Overseas Bank and the company has to investigate various ways how this can be reduced in discussion with these two institutions and obtain some relief.

In order to ensure that operating losses are minimised the company has added Dry Ice production facility based on compressed corbondioxide gas. Hopefully these operations will enable the company to survive till long term strategy can be evolved either by sale of assets or using existing substantial infrastructre for other products requiring low capital investments.

The company has excellent infrastructure in terms of a fully fenced factory land (15 acres), Mines (45 acres), large covered building space with AC sheeting and well equipped and fully furnished laboratory and office in RCC building, avallability of Natural Gas, Gas based captive power generation, APSEB Power supply, Water and Labour Quarters to house 30 families. Your Directors are actively pursuing various alternatives towards this end.

**DIRECTORS RESPONSIBILITY STATEMENT**
