### REPORT OF BOARD OF DIRECTORS (Contd...)

#### REVIEW OF OPERATIONS

During the year under review, the turnover of the Company increased by 41.91%. Gross Loss before depreciation decreased from Rs. 87.65 lakhs to Rs. 70.16 lakhs. The loss was on account of the following factors.

The demand for yarn from garment exporters had fallen due to the appreciation of the Indian Rupee against the USD.

Cotton prices had increased over 50% but there was no proportionate increase in yarn Prices.

Power supply from the grid was erratic with frequent power failures and poor quality of power causing production loss.

Cost of most inputs had gone up drastically including interest costs.

During the current year, the Company is expected to improve its performance with the depreciation of the Indian rupee and more demand for yarn at higher prices.

### MANAGEMENT DISCUSSION AND ANALYSIS

#### A. INDUSTRY STRUCTURE AND DEVELOPMENTS:

Textile Industry is the largest employer of workforce after agriculture, playing a crucial and pivotal role in the Indian Economy. Its importance to the Indian economy is recognised for its significant contribution to Industrial production and export earnings. The textile Industry can be classified under 4 categories: Spinning, Weaving, Knitting and Processing. The Indian Spinning Sector is largely in the organised sector and continues to be the predominant supplier of Cotton Yarn in the World.

The Indian textile industry is presently going through a very challenging phase. The increase in cotton prices, freight and other input costs along with erratic power supply is making the Indian textile industry face intense pressure from other competing nations. However, with the withdrawal of the duty on cotton imports, removal of incentive on cotton exports, appreciation of the USD and pick up in the demand for textile products from India, one can expect the textile industry to perform better in the current year.

#### B. OPPORTUNITIES, THREATS, RISKS AND CONCERNS:

The increased purchasing power and liberal spending patterns of the young and growing Indian population and signs of pickup in demand for Indian textile products from international buyers holds much promise for the Textile industry. The spiraling inflation, slowing of the economic growth all over the world, hardening interest rates, currency volatility and crude prices are affecting the entire economy and the textile industry also.

#### C. SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE:

At present, the segmental reporting are not applicable to the company as the Company has only single reportable business segment i.e. "Textiles"

#### D. OUTLOOK :

The future of the textile industry is full of surprises and challenges. Only the mills, which warrant customer satisfaction, value for money at a low cost, good working capital management and clear vision for the future can survive in the highly competitive years to come. The management of your Company is working in that direction.

Your company is a significant player in the coarse and medium segment in the Indian Cotton Yarn Market. Owing to a good monsoon, we expect a bumper cotton crop. The company continues to make special efforts to tap new markets, apart from traditional markets.
