The above deficit has been carried over to Balance Sheet.

PERFORMANCE:

During the beginning of this year, the rupee appreciation against US Dollar led to a fall in export of Textiles and though the trend started reversing later, due to the global industrial and economic recession prevailing in US, European and Asian Countries, the exports have not picked up significantly.

As observed in last year's report, the cotton prices ruled high by about 25 to 30% over international market prices on account of minimum support price announced by Govt. of India for cotton. Hence, the industry could not take advantage of record production of cotton in India.

The units in Tamil Nadu suffered huge production losses due to unscheduled power shutdowns and power cuts imposed by Tamil Nadu Electricity Board.

Under these circumstances, your Directors feel that the company could not achieve the expected results.

However, we expect that with the intervention of new Govt. and with the improved power supply and taking into account the importance of this industry in the Indian economy, the Board of Directors hope that during the current year the working results of the company might stabilize.

REAL ESTATE OPERATION:

It was mentioned in the earlier Directors' Report that the company intends to develop the land at its Ganapathy Unit. Accordingly, it had entered into a Joint Development Agreement with M/s Arihant Griha Ltd., Chennai. Due to the present recessionary conditions prevailing both at home and abroad which has affected the real estate business to a great extent, the Developers have intimated and we have accepted to terminate the contract. In view of this development, the company is looking at other avenues in this regard.

DIRECTORS:

Retiring Directors:

Sri N Jothikumar, one of the Directors of the Company retires by rotation at the ensuing Annual General Meeting of the Company. The place so vacated by him has to be filled up in the same meeting. The retiring Director is eligible for re-appointment.

MANAGEMENT DISCUSSION AND ANALYSIS

1. INDUSTRY STRUCTURE AND DEVELOPMENT

The Indian Textile Industry has evolved into a class manufacturing center. With the implementation of Technology Upgradation in Textile machinery and Technology Mission in cotton increasing the per capita world class quality cotton production, the textile industry has a future in catering to the world by increasing its exports as also increased domestic demand.

2. RISKS AND CONCERNS

Though a bright future is envisaged for the textile industry, but it is not immune from the normal business risks like fierce competition from neighbouring countries, availability of raw material at international prices are the greatest threats to the industry. Rise in oil prices will increase freight costs and PSF. The power situation for the next few years is also worrisome.

3. FINANCIAL AND OPERATIONAL PERFORMANCE

Last year the centre fixed the minimum support price for cotton at an unrealistic level unrelated to global market conditions. While exporters were unhappy, cotton textile mills have been complaining about high domestic price of raw material that render textile exports uncompetitive a slow down in the global economic activity also resulted in a slow down in textile exports and loss of export earnings. With the continued adverse market conditions, shortage in power and increase in cost of raw material and other inputs, the working of the company has suffered very badly.

Keeping in view the importance of the textile industry, the Govt. will look to quicken the Technology Upgradation Fund Scheme and Technology Mission on Cotton during the 11th Plan period. Govt. is also pondering over certain steps to be taken to help rejuvenate the textile industry including liberalization of labour laws.

4. INTERNAL CONTROL SYSTEMS & PROCEDURES

The Company is having a proper and adequate system of internal controls to ensure that all assets are safeguarded and protected against loss from unauthorized use or dispositions. All transactions are authorized, recorded and reported correctly. These systems are supplemented by internal audit.

5. OPPORTUNITIES & THREATS

The slow down and recession in other parts of the world have forced to improve availability of exports in India with less cost. This offers immense opportunity in India for the future. With the proper support from the Govt. on infrastructure, finance and taxation, the Indian Industry can grow manifold and your company shall also take part of it.

High interest rates, lack or inadequate credit facilities extended by Banks to their customers, pricing pressure on cotton, power and other inputs, fluctuating foreign currency, global recession are threats thrown to the textile industry and any adverse change may influence the profitability of the company.

6. OUTLOOK

The Indian Textile Sector is suffering on account of high interest costs, shortage of power, higher raw material prices both Cotton and PSF. With the Govt's determination to strive for service tax exemption for the textile industry reducing interest rates on pre and post-shipment credits and formulating a National Fibre Policy and a scheme for technology mission on cotton during the 11th plan period is what is needed at this juncture and will reduce the burden on the textile industry. The company cannot guarantee the accuracy of assumptions and perceive performance of the company in future. Therefore, it is cautioned that the actual results may materially differ from those expressed in this report.
