Future

The year began with almost normal economic activity only to be marred by the resurgence of covid infections beginning February 2021. Although it was initially concentrated in a few States of the Country, it has spread quickly through the entire country.

The Company's Mill at Nagari (AP) did not experience any lock down during the second wave. Hence, its operation was not affected and the Capacity utilization was better and would continue to be so provided the third wave were to be less severe owing to penetration of vaccination.

With a devastating second wave and the prediction of a third wave, the Covid-19 pandemic has been a game changer in more ways than one.

The Indian Textile Industry possesses inherent and unique strength such as abundance of raw material, presence of entire value chain, competitive manufacturing costs and availability of skilled man power. Such a conducive atmosphere would enable India as a viable competitive alternative to China.

The Production Linked Incentive Scheme (PLI) together with Mega Investment Textile Parks (MITRA) as announced by the Government of India will make Indian manufacturers globally competitive, attract investments in the areas of core competency and cutting edge technology, ensure efficiency, create economy of scale, enhance exports and make India an integral part of the global supply chain.

Emphasis of State-of-the-art infrastructure through MITRA will give our domestic manufacturers a level playing field in the international textile market and pave the way for India to become a global champion of Textile exports across all segments.

Cotton yarn prices are seen ruling firm in view of surge in the raw material prices. Now that the Covid shut downs in various countries have ended or are coming to an end which could result in improvement in demand. It is expected that the textile industry would see a gradual recovery in demand during the year 2021-22 as Covid worries ease and discretionary spending returns.

The recovery in global and domestic demand could take place with large fiscal and accommodative monetary stimulus extended by the Governments and Central Banks that facilitate faster recovery.

Real Estate Development

The Covid-19 led lockdown has created multiple problems such as labour shortage, delay in receipt of materials, etc, in executing the project. Earlier it was expected that the project would be completed by middle of 2021. Because of strict lock down imposed by the State Government the completion got delayed by six months. It is hoped that it would be possible to deliver the Villas by March 2022. Management is receiving a good response for the Villas.
