compared to Rs.730.63 Lacs in the previous year. Depreciation was Rs. 36.11 Lacs (Previous Year Rs. 24.03 Lacs). The increase in depreciation is mainly on account of change in charging provisions under the Companies Act, 2013, based on useful life of asset instead of fixed percentage under the Companies Act, 1956. The Provision for Taxation: (i) for the year under report was Rs.112.16 Lacs and (ii) Short Provision in respect of earlier years (net) was Rs.107.14 Lacs. Profit after tax was Rs. 480.49 Lacs. The total income and the profit for the year are higher, mainly on account of higher booking of profit on sale of non-current investments by Rs.247.56 Lacs and increase in interest income on Inter Corporate Financing by Rs.93.14 Lacs.

An amount of Rs.96.50 Lacs was transferred to Statutory Reserve Fund pursuant to Section 45 IC of RBI Act, 1934, an amount of Rs.5.75 Lacs was transferred to General Reserve I and Rs.4.02 Lacs to General Reserve II, during the year under review.

The Net Worth of the Company as at 31st March, 2015 stood at Rs. 5001.20 Lacs as against Rs.4807.25 Lacs on 31st March, 2014.

NBFC INDUSTRY

The NBFC (Non-Banking Finance Company) sector has evolved considerably in terms of its size, operations, technological sophistication, and entry into newer areas of financial services and products. NBFCs are now deeply interconnected with the entities in the financial sector, on both sides of their balance sheets. Being financial entities, they are exposed to risks arising out of counterparty failures, funding and asset concentration, interest rate movement and risks pertaining to liquidity and solvency, as any other financial sector player.

Business Review

The Company's operations continue to be mainly focused in the areas of Inter- corporate Investments, Capital Market activities and Financing. Segment-wise brief outline of financial and operational performance during the year under report is as under:

(i) Investments

The Company's investment portfolio is reviewed from time to time to buy securities to add to the Portfolio or to sell in order to make Capital gains. Details of the Company's investments are given under Note No. 7 to Financial Statements of the Company for the year ended as at 31st March, 2015. The total worth of Company's Quoted and Unquoted Investments in Shares and Securities (Including Stock-in-trade) as at 31st March, 2015 is Rs.5404.98 Lacs (Previous Year Rs.4359.63 Lacs) which is 128.82% (Previous Year 55.16%) higher than related Book Value. The increase in appreciation of Book Value of portfolio from 55.16% to 128.82% is mainly on account of overall increase in market capitalization.

During the year under report the Company:

- (a) has made disinvestment of Rs.456.91 Lacs from its Non-current Quoted Equity Investments as against Rs.37.59 Lacs in the previous year.
- (b) booked a net profit of Rs.727.90 Lacs on sale of Non-Current investments as against Rs. 480.34 Lacs in the previous year.

During the year under report the Company earned interest income on Inter Corporate Deposits of Rs.119.56 Lacs as against Rs.105.76 Lacs in the previous year.

(b) Interest on Real Estate Exposure:

Till last year no income was earned on the amount provided as loan to Stan Plaza Limited (SPL) for taking exposure in real estate business on behalf of the Company. During the year, SPL got credit on the amount it extended to a real estate business company on our behalf. Accordingly SPL gave credit of Rs.79.34 Lacs as interest to the Company as per mutual understanding.

During the year, the Company on taking additional exposure to the extent of balance 50% share of Standard Industries Ltd. (SIL), has become the sole beneficial owner of the stake held by SPL in a real estate business company besides SPL holding land at Pune for and on behalf of the Company and SIL equally.

Opportunities and Threats

As various factors are posing constant threats and high volatility in the Capital Markets, it appears beneficial to diversify the portfolio to reduce the risk and insulate from the vagaries of stock-market. Mutual Funds help to reduce risk through diversification and professional management and therefore, the Company invests its surplus funds in debt/equity oriented Mutual Funds. One of the biggest advantages of Mutual Fund investment is Liquidity. Open-end funds provide option to redeem on demand, which is beneficial during rising or falling markets. The management is exploring other avenues of business.

Outlook

The Company intends to continue focusing on capital market activities including trading in securities and emerging products in derivatives.

Risk and Concern

The Company is exposed to specific risks that are particular to its business and the environment within which it operates, including interest rate volatility, economic cycle, credit risk and market risk. The Company has quoted investments which are exposed to fluctuations in stock prices. These investments represent a material portion of the Company's business and are vulnerable to fluctuations in the stock markets. Any decline in prices of the Company's quoted investments may affect its financial position and the results of its operations. It continuously monitors its market exposure and tries to manage these risks by following prudent business and risk management practices.

Adequacy of Internal Control

The Company has a proper and adequate system of internal control in all spheres of its activities to ensure that all its assets are safeguarded and protected against loss from unauthorized use or disposition and that the transactions are authorized, recorded and reported diligently.
