

SAILing with winds of change

2014-15 ANNUAL REPORT

Vision

To be a respected world class corporation and the leader in Indian steel business in quality, productivity, profitability and customer satisfaction.

Credo

- We build lasting relationships with customers based on trust and mutual benefit.
- We uphold highest ethical standards in conduct of our business.
- We create and nurture a culture that supports flexibility, learning and is proactive to change.
- We chart a challenging career for employees with opportunities for advancement and rewards.
- We value the opportunity and responsibility to make a meaningful difference in people's lives.

LETTER TO SHAREHOLDERS

Dear Shareholders,

It is my privilege to share with you the significant achievements of your Company in the year 2014-15. In this year, your Company has achieved the distinction of commencing production from the largest operating Blast Furnace in the Country, "Kalyani" at IISCO Steel Plant, Burnpur in December, 2014. It was a momentous occasion and a matter of great pride for the Company when Hon'ble Prime Minister of India, Shri Narendra Modi dedicated to the Nation, SAIL's modernised and expanded IISCO Steel Plant on 10th May, 2015. The Government of India has been giving impetus to the infrastructure development in the Country and removing the bottlenecks affecting the infrastructure sector in particular, with a view to revive the economic growth in the Country. With this continuing thrust for infrastructure development and manufacturing growth, where steel industry plays a pivotal role, the Hon'ble Prime Minister of India, Shri Narendra Modi had earlier dedicated to the Nation, the modernised and expanded Rourkela Steel Plant on 1st April, 2015.

Your Company's contribution to the development and growth of the Country is accentuated from the implementation of its ongoing Modernisation & Expansion Programme (MEP), with about 5.5 million tonnes per annum of Hot Metal capacity having been added so far. The Hot Metal capacity of the Company will further increase and is expected to reach a level of 23.5 million tonnes per annum by the end of the Financial Year 2015-16. During implementation of the ongoing Modernisation and Expansion Programme, the Company faced a number of challenges. Despite the challenges, the Company completed modernisation and expansion of IISCO Steel Plant, Rourkela Steel Plant and Salem Steel Plant. Further, a number of facilities at other Plants like the new 1.2 MTPA Cold Rolling Mill at Bokaro Steel Plant; Coke Oven Battery No.2, Ladle Furnace, Lime & Dolomite Plant, Bloom-cum-Round Caster at Durgapur Steel Plant; and 2nd Sinter Machine in Sinter Plant No.3 and Coke Oven Battery No. 11 at Bhilai Steel Plant have also became operational during the Financial Year 2014-15.

Besides the on-going MEP, your Company has taken steps to further enhance its competitiveness by initiating the work on the projects for installation of a state of the art 3.0 Mtpa Hot Strip Mill at Rourkela Steel Plant and modernisation of Bokaro Steel Plant's Steel Melting Shop No.1 through installation of modern Basic Oxygen Furnace and Continuous Slab Caster for phasing out the energy intensive Ingot Casting- Slabbing Mill route. The Company incurred a capital expenditure of about Rs.6,840 crore during the Financial Year 2014-15 and plans a further capital expenditure of Rs.7,500 crore during the Financial Year 2015-16.

Maintaining its contribution to the economic development of the Country and to meet the future challenges, your Company is working on a long term strategic plan "Vision 2025". This shall steer the Company towards a target of 50 million tonnes of Hot Metal capacity, which shall put SAIL amongst the top steel companies globally, besides contributing to the 'Vision 300 million tonnes per annum steel capacity' of Government of India.

Your Company is proud to be a part of 'Make in India' initiative of the Government of India and the Country's first indigenously built warship named INS Kamorta, an anti submarine warfare corvette, was built with special grade high-tensile steel produced by Bhilai Steel Plant. The ship was handed over to the Indian Navy by Garden Reach Shipbuilders & Engineers Limited in July, 2014.

I am glad to inform that during the Financial Year 2014-15, your Company achieved a turnover of Rs.50,627 crore and profit after tax of Rs.2,093 crore. The Company contributed about Rs.11,110 crore to the National Exchequer by way of payment of dividend, taxes and duties to various Government Agencies.

On the operational front, the Company recorded its highest ever Hot Metal production of 15.413 Million Tonnes (MT) in the Financial Year 2014-15, registering a growth of about 6.9% over 2013-14. Production of 13.909 MT of Crude Steel showed an improvement of about 2.5% over the previous year. Inspite of the challenging and competitive domestic market, increase in imports particularly from China due to its large surplus capacity and slowing domestic consumption, cheap sourcing of steel from countries with whom India has Free Trade Agreements(FTA) viz. Japan, Korea and ASEAN, your Company achieved total sales volume of 11.8 million tonnes.

With regard to the raw materials security of your Company, the existing requirement of iron ore is being met from the captive mines in full. The capacities of existing iron ore mines are being expanded and new iron ore mines are being developed for ensuring regular supplies of iron ore post ongoing Modernisation and Expansion Programme. In view of promulgation of MMDR Amendment Act, 2015 and the Order of the Ministry of Mines, Government of India, the State Government of Jharkhand has extended the lease renewal period of SAIL's seven iron ore leases and four flux leases till 31.3.2020. Subsequently, Government of Odisha has also extended the lease renewal period of ML-162 lease of Barsua mines to 31.3.2020.

In respect of coal, Sitanala Coking Coal Block has been allotted to SAIL by the Government of India under notified Coal Blocks for allotment to Government Companies and the Agreement in this regard with the Nominated Authority was signed on 30th March, 2015. Further, for allotment of new coking coal and thermal coal blocks, efforts are being made for obtaining allotment of coal blocks under Government dispensation route. With a view to secure long

term security for supply of coking coal, a critical raw material for steel making, in a landmark acquisition of large coal mine and coal assets overseas by an Indian company, International Coal Ventures Pvt. Ltd. (ICVL), the joint venture of SAIL, Coal India Limited, Rashtriya Ispat Nigam Limited (RINL), NMDC Limited & NTPC Limited took over an operating coal mine and coal assets of Rio Tinto Limited in Moatize Coal Basin in Tete Province of Mozambique, having a total coal resource of 2.6 billion tonnes. The operating coal mine at Benga produces prime hard coking coal / thermal coal, and has a state-of-the-art wash plant and surface infrastructure with a potential to expand the raw coal production from the current 5 million tonnes per annum (Mtpa) to 12 Mtpa. The shipments from the mine are being received on continuous basis, establishing a long term and reliable source of supply of coking coal for SAIL, RINL & NMDC.

Your Company is always on look out for growth opportunities and diversifying its product basket. In this endeavour, the Company signed a Memorandum of Understanding (MoU) in May, 2015 with ArcelorMittal, the world's leading steel and mining company, to set up an automotive steel manufacturing facility under joint venture arrangement in India. The proposed Joint Venture envisages installation of a state-of-the-art cold rolling mill and other downstream finishing facilities in India that will offer technologically advanced steel products to India's rapidly growing automotive sector.

Your Company has always been in the forefront in preservation of environment and sustainable development. In this direction, SAIL Plants have taken various initiatives to reduce environmental footprint and enhance operational efficiency by improving operational discipline and minimising emissions. This in conjunction with state of the art facilities installed under the current Modernisation & Expansion Program has led to significant improvement in environmental parameters, enabling us to produce steel in a greener and more environmental friendly manner than before. Realizing the significance of plantation in overall environment, about 2.64 lakhs saplings were planted in and around SAIL Plants and Mines during the year 2014-15.

With continuing focus on cordial employee relations and employee welfare, your Company has achieved the Labour Productivity (LP) of 302 TCS/Man/Year in 2014-15. The manpower strength of SAIL as on 31st March, 2015 was 93,352 numbers with manpower rationalization of 4,545 numbers achieved during the year. The enhanced productivity with rationalized manpower could be achieved as a result of enhanced production, judicious recruitments, building competencies and infusing a sense of commitment and passion among employees to go beyond and excel. With a view to prepare employees for tomorrow, for effectively taking up challenges and discharging new roles and responsibilities, a total of 45,124 employees were trained during the year on various contemporary technical and managerial modules. Further, the Company has signed a MoU with National Skill Development Corporation to collaborate and support skill development initiatives in the vicinity of SAIL Plants for meeting

the requirement of skilled manpower and developing industrial eco-system of the respective areas.

Your Company continues to get laurels and appreciation in various fields, with Bhilai Steel Plant having been awarded the PM's Trophy for the Best Integrated Steel Plant for the year 2011-12 for a record 11th time (out of 21 times awarded). Further, efforts made by the Company in the area of cost management, with a view to sustain and succeed in the current competitive environment, have been recognised by the Institute of Cost Accountants of India and SAIL has been conferred with the First Prize under the category of Public Manufacturing: Organisation (Large) at the 12th National Awards for Excellence in Cost Management -2014.

Your Company remains committed to the social development of under privileged class in the vicinity of SAIL Plants, Units and Mines. In this regard, SAIL has adopted a balanced approach towards inclusive growth consistent with socio-economic environment. Inspired by clarion call of the Hon'ble Prime Minister for construction of toilets in schools under "Swachha Vidyalaya Campaign", a drive to promote sanitation and hygiene in remote areas, the Company has undertaken construction of toilets in schools without toilets/having dysfunctional toilets falling within the peripheral areas of SAIL Plants & Units and Mines which have been allocated to the Company by Ministry of HRD, Government of India. Envisaging the aptitude and faculties of the learned, enlightened citizens who can transform the society, SAIL owns and runs over 129 schools in its townships to provide holistic education to about 60,000 children and is providing assistance to another 629 schools having 95,000 students. As a responsible Corporate Citizen, the Company has supported the rehabilitation initiatives for the people affected by Natural Calamities like the floods in Jammu & Kashmir, Phailin cyclone in Odisha, Flash Floods in Uttarakhand, etc.

Dear Shareholders, with the Government's focus on manufacturing and industry coupled with spending on infrastructure (roads, rail, ports, etc.), we are optimistic that the demand for steel in India is going to increase in the years to come and with the ongoing Modernisation & Expansion Programme to be completed shortly, your Company is fully geared up to cater to the increased demand for steel in a cost effective manner. I would like to place on record my sincere thanks and appreciation to Board of Directors for their support and guidance. I would also like to express my sincere thanks to dedicated SAIL family and all the stakeholders for continuing their support and confidence in us.

(Rakesh Singh) Secretary, Ministry of Steel, Government of India & Chairman & Managing Director, SAIL (Additional Charge)

DIRECTORS' REPORT

To,

The Members,

The Directors have the pleasure of presenting the 43rd Annual Report of the Company together with Audited Accounts for the Financial Year ended 31st March, 2015.

A. FINANCIAL REVIEW

Your Company achieved a turnover of ₹50,627 crore during 2014-15, which is lower by 2% over previous year, mainly on account of lower sales volume. The steel prices which were at a high in the beginning of Financial Year 2014-15, started falling gradually every month from September'2014 onwards. Towards the end of the Financial Year 2014-15, the steel prices reached at the lowest for the Financial Year. The Profit After Tax of your Company for the Financial Year was ₹2,093 crore as compared to ₹2,616 crore in the previous Financial Year, which included the one time receipt of ₹1,056 crore from M/s. Vale Australia Pty Ltd.

The net profit of your Company for the year 2014-15 has been negatively impacted on account of stagnant saleable steel production and lower sales volume of saleable steel, higher salaries & wages, higher stores & spares expenditure, higher repairs & maintenance expenditure, increase in royalty on iron ore, increase in purchased power rate, higher usage of imported coal in the blend due to lower availability of indigenous coal, higher interest charges, higher depreciation due to capitalization of new facilities and reduction in interest earning on term deposits. The Management has taken various cost reduction measures like reduction in usage of external BF Coke, lower coke rate & energy consumption, higher CDI usage, etc. to offset the impact of adverse factors.

Your Company continued its thrust on optimum utilisation of funds by better fund management. This included replacement of high cost short term loans with low cost debts, timely repayment of loans including interest, strategic parking of surplus funds with scheduled banks, actions for future fund raising etc. to meet the growth objectives. Further, the Company hedged the foreign currency risk on Buyer's Credit and repayment of External Commercial Borrowings depending on market conditions. The Company had liquid assets of ₹ 2,000 crore as on 31st March, 2015 invested in short term deposits with scheduled banks against borrowings of ₹ 29,898 crore as on 31st March 2015. The debt equity ratio of the company increased to 0.69:1 as on 31st March 2015 from 0.59:1 as on 31st March 2014 mainly on account of increase in borrowings during the year. The net worth of company improved from ₹ 42,666 crore as on 31st March 2014 to ₹ 43,505 crore as on 31st March 2015 and this helped in generation of internal resources for funding expansion plans of SAIL. During the Financial Year 2014-15, the capital expenditure incurred was ₹6,840 crore.

The Company paid interim dividend @ 17.5% of the paid-up equity share capital during the year. The Board of Directors has further recommended a final dividend @ 2.5% subject to approval of shareholders, thus making the total dividend @ 20% of the paid up equity share capital for the Financial Year 2014-15.

Hon'ble Prime Minister Shri Narendra Modi dedicating SAIL's modernised Rourkela Steel Plant to the nation in the presence of Dr. S.C Jamir, Governor Odisha, Shri Naveen Patnaik, Chief Minister, Odisha, Shri Narendra Singh Tomar, Minister of Steel & Mines, Shri Jual Oram, Minister of Tribal Affairs, Shri Dharmendra Pradhan, Minister of State (IC) for Petroleum and Natural Gas, , Shri Vishnu Deo Sai, Minister of State for Steel & Mines, Shri Rakesh Singh, Secretary, Ministry of Steel and the then Chairman, Shri C.S. Verma.
