## **MANAGEMENT DISCUSSION AND ANALYSIS**

### **1.0 INDUSTRY STRUCTURE & DEVELOPMENTS**

- 1.1 The industry structure of laminates and plywood can be broadly classified into two sectors viz organized and unorganized. The organized sector plants (which includes our Company) are mainly producing quality grade finished goods whereas the unorganized sector is catering to the users of the low priced finished goods.

### **2.0 SEGMENT WISE / PRODUCT WISE PERFORMANCE**

#### **2.1 LAMINATES**

Because of competitive environment, the Company has opted for different product mix for different areas. In international market, the exports to developing countries are of low thickness high volume products, whereas to developed countries, both the high volume-low thickness and low volume-higher thickness/special products are exported.

In domestic market, various stock points have been started from where fast deliveries are made to the chain of dealer network here to, areas have been identified where only high end products are being sold and in other areas, the whole of product mix is available to the end user. This has increased our product take off very well and positive results of the same are expected to be reaped in current and future years.

#### **2.2 PLYWOOD**

The Company is producing only value added, boiling water proof, decorative & moisture resistant plywood as there is stiff competition and negligible margins in commercial plywood and it was felt that the company should not get into this product. Since plywood is sold only in domestic market (there is no export market of these products from India), it has been clubbed with laminates for stocking at various points for further sales. As dealers of both laminates and plywood are same, the Company has a distinct advantage over those competitors who are not into both the products.

### **3.0 OPPORTUNITIES AND THREATS**

- 3.1 The demand of both the high end and low value products is growing both in the country as well as in the international market. India is one of the largest exporters of laminates of the world and the volume of exports are increasing every year. The Company is also exporting to various countries all over the globe and has a veritable list of satisfied repetitive customers.
- 3.2 The Company is mainly in competition with other organized sector producers in the domestic market and owing to strong quality products and known brand, has started expanding its base in areas hitherto untapped by it due to preoccupation with exports. The products have been well accepted in the market and the demand is growing speedily.
- 3.3 In addition to the existing range, the Company has also started exporting high end high value products and has started introducing the same in domestic market also.

**4.0 INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY**

- 4.1 The Company has a proper and adequate internal control system commensurate with the size of the business for safeguarding and protecting the use and disposition of all its assets, as well as authorization of all financial transactions. In addition to Company wide control systems, the Company has adopted all the recommendations of SEBI including constitution of the Audit Committee of the Board. All financials before placement at the Board are independently reviewed by the Audit Committee and their view and recommendations are considered for adoption by the full Board. This process ensures recognition of full accountability by the Board and forms the core of our corporate governance practices.
- 4.2 The Company's business ethics policy aims at management's commitment to conduct its business with the highest ethical standards in conformity with all applicable laws.
- 4.3 Financial and administrative authority granted to the Managing Director and other senior executives is clearly defined and documented ensuring complete accountability and adequate internal control.

**5.0 FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE :**

- 5.1 Your Company has demonstrated operational efficiencies in all its functional areas – operations, marketing & procurement.
- 5.2 In spite of decreasing margins due to rise in cost of raw materials and stiff competitions in the laminates industry and high cost of depreciation on newly acquired assets the Company could make a profit of Rs. 80.06 Lacs and has achieved a Net Profit ratio of 3.59%
- 5.3 Your company demonstrated strict control over working capital operations and cash management.
- 5.4 The debt to equity ratio at 0.46:1 as on 31.03.03 gives the company sufficient borrowing capacity for future projects.

**6.0 HUMAN RESOURCE DEVELOPMENT**

- 6.1 We believe that human resources are the basic source of value creation in all aspects of its business. We acknowledge the importance of human resource strength and attracting talent creating an environment to excel and advancing the best talent. In Golden Laminates Ltd., we have adopted multi pronged approach to address it, these are :-
- Aligning HR interventions to strategic goals of the organizations.
  - Creating an environment conducive to full participation of employees.
  - Learning, training and development of employees for emerging requirements of a different skill-mix.
- 6.2 **Industrial Relations :**
- The management and workers in Golden Laminates Limited maintain cordial and harmonious relations-unanimous in their belief that they have one common objective – sustainable success of the Company. All areas concerning employees involvement, safety, health, training and development solicit their unqualified participations.

**7.0 RISKS AND CONCERNS**

- 7.1 The laminates industry operates on thin operating margins. Its profitability and cash flows are seriously impacted by even slight changes in external environmental factors.
- 7.2 The laminates industry is highly competitive, as there are quite many players in the market. It requires a lot of thrust and efforts on the part of company in the field of marketing and advertising.

**8.0 FUTURE OUTLOOK**

- 8.1 Golden Laminates Limited has operated its facilities during the past years at their most optimum level and will continue to further improve its operations in the years to come.
- 8.2 Golden Laminates Limited will endeavour to maintain and indeed enhance, its leadership position in the domestic laminates industry by continually improving its product and service offering and simultaneously pursuing alternative growth opportunities in related areas in the near to medium term.
- 8.3 Your Company's business outlook in the near term remains positive. Based on initiatives already in place, and others in the pipeline, your Company can look forward confidently to overcoming the few constraining factors outlined above, and to successfully take on competition and grow in the years to come.

**CAUTIONARY STATEMENT**

The above analysis may contain certain 'forward looking statements' within the meaning of applicable securities laws and regulations. These forward looking statements are based on certain assumptions and expectations of future events. The Company can not guarantee that these assumptions and expectations are accurate and will be realized. The Company's actual results, performance or achievements could thus differ materially from those projected above. Important factors that could make a difference to the Company's operations include global and Indian demand-supply conditions, finished goods prices, raw material availability and prices, cyclical demand and pricing in the Company's principal markets, changes in Governmental regulations, tax regimes and other factors. The Company assumes no responsibility to publicly amend, modify and revise any forward looking statements on the basis of any subsequent developments, information or events.

**CORPORATE GOVERNANCE REPORT 2002-03****(As required under Clause 49 of the Listing Agreements entered into with Stock Exchanges)**

Corporate Governance is a system, by which business corporations are directed and controlled. The corporate governance structure specifies the distribution of rights and responsibilities among different participants in one corporation, such as the Board, Managers, Shareholders and other stake holders and spells out the rules and procedures for making decisions on corporate affairs. By doing this, it also provides the structure through which the company objective of 'REACHING TOMORROW FIRST' is set and the means of attaining these objectives and the system of monitoring performance is institutionalised.
