Managing Director's Statement - 2014-15

Dear Shareholders

It gives me immense pleasure to welcome you all at the Thirty Sixth Annual General Meeting of your Company. It's been another challenging year and I would like to thank and appreciate you whole heartedly for your continued trust, encouragement and support, which made your company sail through this difficult phase.

ECONOMIC OUTLOOK

The Global Economy witnessed a marked slowdown in growth. Emerging economies were characterized by sharp fall in growth rates, especially in China. Europe and Japan continued to be in pressure through out the year and the United States showed tepid signs of improvement.

The Indian Economy witnessed the seeds of much needed sustainable economic stability being sown, with a new Government enjoying clear majority, coming to power at the centre, after a two decade long of coalition politics and the future to be seen with certain degree of optimism. With better macroeconomic conditions, coupled with improved sentiments post the general elections helped India to be the better performing emerging markets economies.

However, given the backdrop of market slow down, consumer spending remained muted during the year and the operating environment continued to be a challenging one. Overall the F.Y. 2014-15 remained a tumultuous one for the Metal Industry, particularly in the background of;

- Subdued manufacturing growth leading to overall depressed demand;
- High input cost;
- Frequent Changes in the prices at London Metal Exchange affecting the local price charging system of primary producers in the country;
- Regulatory uncertainties in captive mining operations.

Your company's performance has been viewed in the context of aforesaid economic and market conditions.

COMPANY PERFORMANCE

The performance of Aluminum Extrusion Industry is dependent upon the following key factors;

- Good Domestic Market
- Reasonable power tariff and other energy costs
- Cost of Credit
- Stable input cost.

The year got off to a jittery start with the first half of the year witnessing a muted consumer demand and production cuts, given the backdrop of slow economic growth. Further high indirect input and finance cost made the operating environment a challenging one.

In the second half of the year, your company faced a financial crunch in the Third Quarter, which nearly doubled the working capital requirement of your company. Further lower margin and lower EBIDT impacted interest coverage, thereby increasing finance cost.

The last quarter of the Financial Year saw business sentiments improving in the energy sector (which constitutes almost 40% of the user segment in India) and automobile sector, which improved the demand and production margins. Thereby the Company witnessed an overall increase in volume as compared to the previous Financial Year.

However considering the financial crunch, high borrowings, poor cash flows and such other factors as mentioned above, the profitability of the company got severely affected.

RESULTS

For the first time since the F.Y. 2003-04 your Company incurred a loss of ₹ 838.19 Lakhs in the current Financial Year (2014-15) as compared to a profit of ₹ 41.09 lakhs for the previous Financial Year (2013-14). EBIDT fell to ₹ 331.36 Lakhs as compared to ₹ 775.20 Lakhs in the previous financial year. However the Company recorded an increase in turnover of ₹ 8075.54 Lakhs in the current Financial Year (2014-15) from ₹ 7368.32 Lakhs in the previous Financial Year (2013-14).

FUTURE OUTLOOK

Despite the sluggish performance of the Company for the year under review, the future looks brighter for the Company going ahead, with demand expected to pick from the 2nd Quarter of the F.Y 2015-16 on the back of improved business sentiments, as well as higher investments across key industrial and infrastructure sector as the governments "Make in India" campaign will start yielding results. Further with the Government taking necessary steps to control the regulatory uncertainties in captive mining operations, the volatility in indirect input cost seems to be easing up. Further the F.Y. 2015-16 will see moderation in interest cover (operating profit / interest cost) which will help improve profitability at net level.

Moving forward, we will continue to leverage our established track record, commitment to quality and strong network of domestic customers to achieve greater value for our shareholders. Our vision is to expand our business volume where margins are comparable.

ACKNOWLEDGMENTS

Your Directors place on record their sincere appreciation to the active involvement and dedication of the officers, employees and workers of the Company at all levels to show the resilience in the performance of the Company.

Your Directors would also like to place on record their sincere appreciation for the continued support and co-operation to the Company by the bankers, primary metal suppliers and other business associates, regulatory authorities, customers, vendors, shareholders and Stock Exchange.
