DIRECTORS' REPORT

Dear Shareholders,

Your Directors are pleased to submit their 14th Annual Report and Audited Accounts for the year ended 30th June, 2000.

(1) OPERATIONS & PERFORMANCE OF THE COMPANY:

(A) FINANCIAL RESULTS:

Previous
Year 1998-99
1799

1859
1694
165

(B) PERFORMANCE DURING THE YEAR:

The Company maintained sales volumes, but had lower average selling prices because of competitive markets.

The commodity speciality chemical industry, based on Ethylene Oxide derivatives faced tremendous internal and external competition. Coupled with this, was a steep increase in crude prices resulting in raw material cost as also energy cost going up without corresponding increase in end product prices. This meant squeeze on margins.

Opening up the economy, coupled with reduction in import duties on finished products and no proportionate decrease in import duties on raw material, has been a serious problem for chemical industry in general and commodity speciality chemicals in particular. In view of steps taken to shift focus from commodity surfactants to Niche Speciality Chemicals, though the Company could not increase gross sale value:

SUNSHIELD CHEMICALS LIMITED

- -operating profits showed an increase of about 15%.
- -gross profit grew by about 21%

Based on the turbulent industrial scenario, Directors decided to make adequate provisioning for doubtful debts. This resulted in a loss of about Rs. 17 lakhs during the year as against profit of Rs. 7 lakhs in the previous year.

(C) DEVELOPMENT FOR FUTURE:

In light of the above, the Company continues with increased vigour its efforts to shift focus from commodity/ competitive surfactants to Niche Markets/Products.

Members are aware that steps required to shift the thrust of business from Alkyl Phenols and Commodity Speciality Chemicals to "Niche Speciality Chemicals" are expected to take time. This needs additional investment. Your Directors believe that though, it would put a strain on the resources during the interim period, in the long run, it would go to build long term success.

As a result of the above product development activity during the year, your Company;

- (a) launched in the last month of the year, a speciality Anti Oxidant which is marketed by a global leader for its Indian customers;
- (b) successfully developed a trial product for a speciality process used by the Indian affiliate of a large multinational group.

(D) EXPORTS EFFORTS:

The Company has successfully obtained the trial order and entered into a tolling

1

agreement with a large multinational company in USA for a new range of Speciality Chemicals.

The steps at C & D above are expected to improve profitability and bring the Company into stabilised business environment.

(2) DIVIDEND:

In view of losses, the Board of Directors does not recommend payment of dividend for the year ended on 30th June, 2000.
