## **MANAGEMENT DISCUSSION & ANALYSIS**

### **Overview of the World Economy**

The world is gradually recovering from the shocks of the most severe recession in recent history. Emerging Asian economies led by China and India are expected to lead the global economic growth as the global economy shifts in their favour. Earlier this year, China overtook Japan as the world's second largest economy, as Japan grappled with its worst natural catastrophe that shocked the slowly consolidating global recovery.

The Euro zone is currently facing the possibility of a severe debt crisis as it scrambles to bail out several of its members. The ECB has already spent over billions to fund the bailouts of three member nations of the Euro Zone. The Euro too faces downward pressure against the U.S. Dollar as ECB indicates continued period of low rates. Coupled with low growth prospects, the Euro zone may be entering a phase of severe economic austerity.

Global commodity pressures continue to remain a worry for India. Higher commodity prices, particularly food, will also put an upward pressure on wages, affecting India's competitiveness in several industries.

**Global Steel industry:** Global crude steel production reached a new height during 2010 at 1,414 million metric tonnes, up by 15% over 2009. While China maintained the lead position in terms of volume of steel produced, with a growth of 9.3%, most of the negative growths seen in the steel producing nations hit by the economic downturn in 2009 reversed during 2010 and they recorded positive double digit growths during the year.

### **Business Overview:**

The Company is mainly into trading of steel. Prior to demerger the steel business was carried out by Intellivate Capital ventures Limited. Recovery in steel demand in developed markets remains fragile, but the strong growth in steel demand in emerging markets will continue, fuelled by growing demand from infrastructure, construction and automotive end-users.
