## Suryalakshmi Cotton Mills Limited

### OPERATIONS

During the year under review the Company has achieved a turnover of Rs.229.09 crores registering a marginal increase of 2% over the previous year.

The production in the Denim Division was lower by 10% compared to the previous year. In the very beginning of the Year the Denim Division was plagued by a month long illegal strike resorted to by the workers. The strike affected not only the production but also delayed the ongoing expansion in the Denim Division. Further the Denim industry has been adversely affected by a glut in the supplies leading to a steep fall in the realization. The average realization dipped by around 22% compared to the previous year. The turn over of the Denim Division at Rs.139.3 crores has therefore been lower by around 22% compared to the previous year. While the export market has not been encouraging; the strengthening of Rupee has only worsened the situation.

The Yarn Division has recorded a significant increase in production. The turnover in the Yarn Division has more than doubled compared to the previous year on account of completion of the expansion in the Synthetic Yarn Division. The expansion of Spinning Division by installation of 25000 Spindles in the Synthetic Yarn segment has been completed and started showing satisfactory results.

### DIVIDEND

In view of the inadequacy of profits the Directors regret their inability to recommend Dividend.

### CAPITAL EXPENDITURE

During the year under review the company has incurred Capital Expenditure of Rs.9263 lakhs.

### EXPORTS :

The exports during the year at Rs.44.80 crores is higher by about 25% over the previous year. This has been possible due to the aggressive efforts in Exports of Denim Fabric. The Denim exports increased by around 54%, though the average realization was lower by 8%. The Exports of Yarn increased by around 11% and the average

realization was marginally higher by about 4%. Understandably, this growth would have been higher but for the weak US \$.

### FUTURE OUTLOOK

The current supply glut in the Denim Industry is likely to last for few more months. The company has therefore, been aggressively pursuing a policy of increasing the realization from the export market by catering to the high end segment of the international markets. To this end the company has engaged the services of international designers and developed many new varieties to cater to the European and American markets. The Company has diverted a part of the Denim capacity for production of Bottom Weights and Grey Fabrics. The trial runs have been successful and the initial response from the market to the company's new products in these segments is very encouraging.

In the spinning division the outlook for the Cotton yarn and the Synthetic yarn from the new unit is good. The export realizations have been adversely affected by the current scenario in the foreign exchange market. However, the company is fairly confident of tiding over the current crisis with these new efforts in the Denim Division and also with the continuing efforts to explore new markets.

The outlook for the Garment Industry continues to be good. The company's subsidiary i.e. Suryakiran International Limited has commenced the commercial production of Denim garments. Its products have been approved by domestic and international buyers. In the first year itself The Company has successfully added buyers like NEXT, Carrefour, Steve & Berry and other international brands.

### DIRECTORS

Pursuant to the Articles of Association of the Company **Sri Navrang Lal Tibrewal** and **Sri R.S. Agarwal** will retire at the ensuing Annual General Meeting and being eligible, offer themselves for reappointment.
