### INDUSTRIAL SCENARIO

The Growth of the Spinning Industry in the Country had registered a sharp drop in the year 1998-99 due to the subdued market conditions. The major factors that have hit the spirning mills sector badly are, the relentless rise in prices of various goods and services particularly at the retail level which has badly affected the purchasing power of the average consumer and the Financial crisis in the South East Asian Countries.

As a result of these conditions, around 1100 spinning mills in the country have closed down their businesses. The export business too has been affected as the realisations have fallen drastically. All these factors have resulted in the sharp decline in the profitability of the existing spinning mills.

#### **OPERATIONS**

During the year under review the Company has achieved a turnover of Rs. 8019 lakhs compared to Rs. 7688 lakhs made during the previous year. The production during the year 1998-99 is 98.82 lakhs (Kgs.) compared to 80.94 lakhs (Kgs.) made during the previous year thereby registering a growth of 22% in terms of quantity. However, due to the fall in yarn prices the Company has incurred a loss of Rs. 77.23 lakhs after providing a depreciation of Rs. 199 lakhs for the year ended 31st March, 1999.

On account of the intensive cost reduction drive in every possible manner at both the units of the Company, your Company has been able to survive the recession and sluggish market conditions in the Textile Industry.

However, the market conditions have started improving progressively from March, 1999 and thereby, it is expected that the Company would earn good profits in the next year.

#### DIVIDEND

In view of the absence of profits during the year, your Directors regret their inability to recommend any dividend for the Equity Shareholders. However, the fixed rate of Dividend (15%) payable to the Preference Shareholders for the year 1998-99 stands accumulated to the next year, as per their terms of issue.

## REDEMPTION & FRESH ISSUE OF PREFERENCE SHARES

During the Financial Year 1997-98, the Company has issued and allotted 2,50,000 15% Cumulative Redeemable Preference Shares of Rs.100/- each aggregating to Rs.2.50 Crores through private placement to part finance the then proposed expansion project at Vikarabad, Andhra Pradesh. As the said project could not materialise, the Company proposes to redeem the said preference shares earlier than envisaged, at par, in a phased manner and also to pay the dividend due thereon.

In order to meet the funds for redemption of Preference Shares and also to part finance the expansion programme proposed to be undertaken by the Company, it is proposed to raise Share Capital upto a sum of Rs.3.00 Crores by issue of Preference Shares through Private Placement.

The Board recommends the redemption of preference shares and the fresh issue Preference Shares for approval of shareholders elsewhere in the notice.

# EXPANSION PROGRAMME AND CAPITAL EXPENDITURE

Your Company has undertaken Expansion Programme by increasing the spindleage by about 12000 spindles at an estimated total cost of Rs. 20 Crores at both the units situated at Kalwakurthy, Mahabubnagar District, A.P. and Ramtek, Nagpur Dist, Maharashtra. For this purpose your Company, has approached Industrial Development Bank of India for the necessary financial assistance. The detailed appraisal of the proposal and the sanction of financial assistance is under their active consideration.

During the year under consideration, the Company has incurred Rs.342.29 lakhs as capital expenditure including the work in progress of Rs.6.93 lakhs.

### **EXPORTS**

The financial crisis in the South East Asian Countries has brought down the export business drastically and the price realisations have fallen considerably. Taking advantage of the financial turmoil and the resultant depreciation of their currencies, certain countries are offering fierce competition to Indian Manufacturers of yarn in the overseas market.

In view of these sluggish and unfavourable International market conditions your Company could not do the export business during the year under consideration. However, as the market conditions are improving your Company is concentrating on Export business to achieve good results.

#### **FUTURE OUTLOOK**

The market conditions have started improving in a better way from March, 1999 and the Company expects that with the launching of much awaited Technology Upgradation Fund (TUF) during April, 1999, the conditions in the textile industry in general are expected to improve in future and thereby the expected results would be achieved in the subsequent years.
