OPERATIONS

During the year the company could not carryout any commercial operations due to adverse market conditions and shortage of working capital. Your directors are exploring various alternatives and are hopeful of starting commercial operations in the next year.

As you are aware your directors have started restructuring the financial assets of the company. In the last year the directors brought additional funds in the company and entered in to one time settlement with IDBI. As a result of which the loan of IDBI was repaid and unpaid interest provided on the loan was return back.

This year your directors have written off various credit balances which were remaining unclaimed in the books of the company for more than 3 years. Your directors also reduced current assets of the company and from the money received the unsecured loans were paid off. Thus during the year the size of the Balance Sheet was streamlined to the tune of Rs.48 Lacs. In the previous year the auditors had qualified their report by making various adverse remarks. We have cleared almost all the adverse remarks this year.

Your directors intend to sale some of the Plant and Machinery and from those dues clear the debts and liabilities. Your directors also intend to start a new line of business shortly.
