PERFORMANCE OF THE COMPANY

In the financial year your company was able to reach higher sales due to the increase in both production and exports compared to the last year. However the international market for reed switches was unfavourable to the suppliers during the period. The prices of critical raw materials in the form of precious metals (viz. Rhodium and gold) were extra ordinarily high. These twin problems of unfavourable market conditions and improving production cost resulted in an adverse financial result.

A series of steps have been taken by your company to tide over above said problems and these are expected to bear results in the next financial year.

FUTURE PROSPECTS

The company is consolidating its strength as a high quality manufacturer of miniature reed switches and intends to increase the capacity utilisation with increased efforts in marketing. Improving the infrastructure and better implementation of the technological expertise of the collaborator is expected to result in better performance. The management's sharp focus on cost control, higher productivity and quality improvement should give your company sufficient strength to withstand the current adverse phase.

The Company has not invited or accepted any deposits during the year.

Pursuant to provisions of the Companies Act, 1956 and the Articles of Association of the Company, Mr. Robert P. Romano and Mr. Klaus Morawetz retire by rotation at the ensuing Annual General Meeting and being eligible offer themselves for re-election as Directors.
