T. SPIRITUAL WORLD LIMITED

From the Chairman's Desk

Dear Shareholders,

I would like to take this opportunity to welcome you to the T. Spiritual World (TSW) family. Your support and confidence in us is integral to TSW achieving its vision of being the complete destination for wellness products and services for individuals and corporates. I am delighted to share with you the update on your Company's performance.

A recent Government survey showed 13% of Indian women are overweight or obese. Rising incomes among India's burgeoning middle class have led to richer diets, more stressful workloads and greater consumption of alcohol and tobacco. A recent report also highlights that executives in India in their early 30s are suffering heart attacks and a large number of them have frequent chest pain, high blood sugar and high cholesterol levels. According to a new report by PricewaterhouseCoopers, expanding waistlines of employees are most likely to show up in profit margins. As work becomes more sedentary the global workforce is becoming less healthy and consequently less productive due to chronic conditions such as heart disease and diabetes.

A report of the Indian Council of Research on International Economic Relations estimates the loss to India's national income as a result of heart disease, stroke and diabetes in 2005 was Rs. 900 crore and projects the figure to exceed Rs. 20000 crore over the next 10 years. With state spending on healthcare at just 0.9% of GDP, government hospitals and health programmes cannot cope with the crisis.

With its exclusive wellness products and services, TSW has been successful in creating a novel position for itself in the Health & Wellness product and services market which is worth Rs. 3500 crore and is clocking a healthy growth rate of 40%. The Company has already established a reputation among the corporate community and created awareness for a healthier corporate lifestyle.

TSW on the occasion of the World Health Day, launched an exclusive kit called the "WONDER CORPORATE WELLNESS KIT." This kit consists of 12 wellness products, based on traditional therapeutic sciences, and is designed to prevent corporate executives from getting stressed.

The Company has been successful in designing and delivering its wellness programs to suit the requirements of the large corporate clients, including several large BPOs & IT Companies. With a dedicated IT & BPO workplace health policy in place by early 2008, TSW expects that the demand for its wellness products and services will rise even further.

In order to expand the reach of the wellness products and services, TSW has announced the setting up of retail outlets at various strategic locations all over the world. These retail outlets will be called "Wellness World". Each of the wellness world outlets will be equipped with state of the art equipment as present in a retail store. The Company plans to launch its first set of retail outlets in the NCR region and then gradually take this concept on a national level. Each of these centers will be set up in main market areas / Malls with direct access to the consumers. It is the Company's intention to set up 100 such retail outlets all over India in the next 3 years.

As part of our Software Development, I am happy to announce that work is underway on the development of a comprehensive software product suite for the education sector that will automate the processes and operations of an educational institute/ organization. Several hardware products for the education sector

T. SPIRITUAL WORLD LIMITED

(School Bell Programmer) are also under development. We are a focal point of Software Development and acts as a hub surrounded by technology, software and its services. By teaming up with leading technology and integrated management, we provide best-of-breed solutions & play a vital role in diversified segments of business that enhance the efficiency of client organizations.

I am confident that with your unstinting support and the commitment and energy of our employees we will be able to live up to the expectations of our stakeholders including shareholders, customers, governments and all members of the community we operate in. Our outlook for the future continues to be optimistic. Our new initiatives in organized retailing and software and hardware products for the education sector will start generating significant shareholder value in the next few years. We do hope that each and every member of the TSW family will get an opportunity to participate in and prosper as we scale greater heights and achieve our mission.
