CHAIRMAN'S POLICY STATEMENT

In one word Business Philosophy of T T Group is “FAIR BUSINESS”, – Fair to all: Suppliers, Buyers, Dealers, Workers, Shareholders, Investors, Community and the Society at large.

Sources for drawing inspiration in founding basic principles of T T Group's business are found in Philosophies propounded by three great Saints, Philosophers and Mahatmas belonging to the Textile World: The Most reverend Spinner in the World History known to mankind till date, Mahatma Gandhi, father of the nation; symbol of religious harmony and great humanist “Kabir” the weaver and the great Tamil Saint, Poet and Philosopher weaver: Thiru Valuvar. Thirukural the great epic book of wisdom serves us as a reference book for seeking day to day solutions of business problems. All the three guiding lights of humanity are nowhere in variance with Jainism, Hinduism, Buddhism or infact any religion.

In dealing with people we follow Vidur and Chanakya.

In business management techniques of modern day obviously we rely on my learnings as well as teachings at Indian Institute of Management, Calcutta / M.I.T. Our Managing Director Mr. Sanjay Jain has his sources in his studies at the Indian Institute of Management, Ahmedabad / Harvard Business School.

Regarding the choice of Technology to be used, we do not compromise. It is always the best of the world, “State of the Art” technology. We do quick updating and remain in tune with the latest innovations. Our source of strength in the field is renowned Textile Technologist - Dr. V. K. Kothari, formerly heading Textile Dept. of world's prestigious seat of learning, Indian Institute of Technology, (IIT) Delhi.

As for consumers, we wish to deliver them more than value for their money. We are here to serve them. We are because of them. We wish them to enjoy new recipies, new delights in their satisfaction. We do not follow trends, instead we set trends. Mrs. Jyoti Jain, a National Institute of Fashion Technology (NIFT) graduate is always at hand to deal with them liberally. All her dealers, agents and customers are more than happy with her.

Renowned Management and Finance Experts Shri Navratan Dugar and Shri V R Mehta are our leading rule setters in the realm of Finance & accounting and corporate governance. In Finance, Manufacturing, Law, Corporate governance we have a dedicated team of Executives, Engineers, Company Secretaries, Chartered Accountants, Human Engineers (HRD) to deliver fruits and achieve corporate goals.

Today Textile Industry is a “Focus Industry” in India. It is once again a Sun Rise Industry. Textile Manufacturing is shifting from America & Europe to Asia – China, India, Bangladesh, Pakistan, Turkey etc. Timely cotton revolution in India has made India's position unique in competitive edge in world trading of cotton and its products- Yarn, Fabric, Textiles, Knitwear Garments and Home Textiles. T T group is essentially an only “Cotton” company. It handles Cotton, Cotton yarn, Cotton fabrics and Cotton garments. Realising the global potential T T is already on the world Cotton scene and is ready to play world cup in Cotton. We wish to enjoy fruits of Cotton. We wish to ensure no one remains devoid of Cotton Garments and that too with assurance to satisfaction to one's heart's content.

Our Company's policy is not to speculate, not to gamble, not to undertake high risk deals. Slow but steady growth is our motto. Our Company does not interfere with free play of share & securities market.

Business Philosophy

1. Management's job is not only to manage company profitably but to ensure its steady growth as well.
2. Quick decision making, speedy implementation, harmonized, teamwork, deliver success.
3. Our objective is to serve Customers to their satisfaction. We strive to enable them taste new delights in quality and service. We make them break their own parameters of satisfaction.
4. Investors are owners of the company. Safeguarding their interest is the prime duty of the management.
5. What is the best today, will not be so tomorrow and will be definitely rejected day after. Hence continuous quality upgradation can only retain customers.
6. Let none be harmed by our dealings with them. We need not make money out of their weaknesses. Instead let buyer and seller both mutually help each other make profit.
7. Knowledge input is the best quotient of profit. For future growth, knowledge sourcing and knowledge management is the first requirement.
8. Ways of the world never remain the same. Keep changing and you never live out.
9. Wisdom attracts money, lack of it may cause loss of money.
10. Indians have now realised their potentials in the global scenario. Every crown there is for them, but only if they try.
11. India traditionally ranks first in the world of nations in respect of the wealth of knowledge. Putting this wealth into action will certainly yield rich monetary rewards as well.
12. We do not compete, we try to co-exist. Cooperation is our motto.
13. Big fish eats up small fishes and yet the ocean is always full of small fishes.
14. No one can drink all the waters of seven oceans, so none can monopolise for ever.
15. Purity of means is more important than the ends. Come what may, great souls will never pick up means not ordained by ethics, morality and one's religion.
16. You earn money, you may lose it anytime, but if you tend to earn goodwill and integrity, money will never leave you.

DIVIDENDS

Your Board recommend dividend @10% (Rs.1/- Per Share of the Face Value of Rs.10/- each) on the paid up Share Capital of the Company for the year ended 31st March, 2013.

REVIEW OF OPERATIONS

In 2012-13 the Company has managed to turn around and stabilize despite the slow global and Indian economy. The Company earned a PAT of Rs. 6.55 Crores against a loss of Rs 2.17 crores in the last year. The turnover of the Company also went up by 28% to Rs. 503 crores. More important the operating EBITDA (before other income) is Rs.52.92 crores as against Rs. 18.80 Crores last year.

The Company managed this turn around despite poor domestic and global conditions, due to aggressive marketing of yarn in China, strong marketing push of its branded knitwear in the domestic market/ Middle East and product expansion in the value added knitwear segment. It was supported by the range bound cotton prices for most of the year. It can proudly claim that its products have reached 62 countries spanning 5 continents and the Company continuously strives to expand markets both in terms of width and volume.

The Company has completed all its ongoing expansion projects. The new 25200 spindles spinning mill in Rajula, Gujarat has been completed in April, 2013 and has just started Commercial production. This unit would be able to avail of the various incentives provided in recently announced Gujarat Textile Policy, 2012. Apart from benefits of electricity rebate, VAT exemption, the biggest benefit would be the 7% interest subsidy, which the project would enjoy for the next 5 years (over and above the 4% interest subsidy under TUF). This unit buoyed with the attractive policy of Gujarat and the locational advantage (next to cotton growing areas and port) is expected to be the most profitable unit of the company.

The Company is facing higher energy costs due to the increase in power tariffs and hike in diesel prices. In order to moderate the impact, the Company has started buying power from IEX and 3rd party producers wherever possible. This lead to some moderation in the ever increasing energy costs. The Company is also going for state of the art automation systems to reduce labour requirement due to increasing wage levels and more important the difficulty in labour availability across the year.

Over the last few years, the Company has been working towards improving its contribution of domestic sales and also the % of value added branded knitwear business. The % of domestic sales has increased to 45% from 20% a few years back. Similarly the % of knitwear segment has gone up to 20% from 10% a few years back. We hope to improve these % to 50 and 25 respectively in the coming 2 years.

In order to strengthen its branded value added domestic business, the company has adopted a new slogan – “Zindagi is Good” to align itself with the changing consumer preferences. It has also introduced and expanded its range of products for men, woman and kids. The Company has almost doubled its advertisement budget this year in its efforts to reach out to the masses. It has also launched online shopping and stepped up its expenditure on digital marketing.

The Company is going slow on fresh capital projects as though operations are stable at the moment, the environment still is uncertain. Volatility is still there on the raw material and currency front, hence focus is on the relatively stable, low capital intensive value added segment. The removal of excise duty on garments in the Budget 2013 has further improved the prospects of growth and margin expansion in this segment.

FUTURE OUTLOOK

The worst is over and the company has managed to cover up the set back of 2011-12. The depreciating rupee, reasonable cotton prices have created a favourable situation for cotton yarn. Further the expected good monsoons, lower inflation and the removal of excise bodes well for the domestic garments demand. However with global growth still muted, political uncertainty and volatility in all areas – its difficult to predict precisely how well the Company would do in 2013-14. However we are confident that it would be better than the last year.

The start of the new spinning mill in Rajula, Gujarat should bring substantial profits to the Company due to the favourable yarn market and the interest subsidy of 11% due to the TUF scheme of Central Government and Gujarat Textile Policy. Further power costs have moderated for Gujarat operations, with the Company being able to purchase power from IEX and 3rd party producers of wind power.

The Company plans to continue strongly leveraging its high brand equity and expand markets and products with strong designing, advertisement and merchandising efforts. It expects a growth of 25% for its branded knitwear segment and margin expansion is also expected. The Company sees immense potential in the new distribution channels like institutional selling, e-commerce and is focusing and investing in these channels in a big way.

The yarn and fabric segments are expected to grow at 20% per annum and also margins are expected to be much better than last year.

We are confident that your Company will perform better in all segments of the business. Our emphasis on high margin business and focus on stable business portfolio can be expected to show positive results for the Company and its stake holders. In our effort to exit the volatile commodity business, the Company seeks to sell its cotton ginning unit in Gujarat in the ensuing year.

Your Company intends to install Solar Power Plants offline for localized captive consumption within each Spinning Mills. We hope by 2016 all our mills and manufacturing units will be running 100% on clean Solar / Wind Power energy. This move is to promote eco-sustainability and will certainly be our bit of efforts to "save earth". Our operations in Tamil Nadu already have 100% captive wind power. The Company is also focusing on environmental friendly yarns like organic, BCI, Fair Trade certified.

ANNEXURE TO THE DIRECTOR'S REPORT

Information pursuant to the Companies (Disclosure of Particulars) in the Report of the Board of Directors Rules, 1988.

A. CONSERVATION OF ENERGY :

- a) Energy Conservation measures taken: In spinning mill energy cost represents the second major cost after the cost of raw material. The company has, therefore, always been conscious of the need to conserve energy. The company is continuously identifying the scope for improving end use efficiency by evaluating the techno-economic viability of various energy conservation measures.
- b) Additional investments and proposals that have been taken are:
 - i) Due to abnormal increase in HSD prices, company has decided to utilise maximum extent electricity supplied by Grid instead of own generation.
 - ii) Company has installed 3 Wind Mill in Tamil Nadu for meeting power requirement of its spinning unit at Avinashi, Dist: Coimbatore.
 - iii) Company is planning to install Solar Power plants offline for captive consumption within each Spinning Mills.
 - iv) Company continuously upgrading its plant and machineries so that energy requirement of per unit production can be minimised.
- c) Impact of the measures of (a) and (b) for reduction of energy consumption and consequent impact on the cost of production of goods: The impact of the measures taken above is that the same would result in reduction in energy consumption in future years and increase in productivity.
