Chairman's Statement

Dear Shareholder,

The Indian economy continued its trend of robust growth on the back of strong performance in key industrial sectors. While inflationary concerns during the year have prompted a correction in interest rates, which could lead to a slowdown in consumer demand, the fundamentals of the economy continue to remain strong and the long-term outlook for the economy continues to be positive.

The Indian automotive industry, after experiencing a slow-down in growth rate last year, bounced back impressively this year to post strong volumes in all segments. In particular, the commercial vehicles segment, which saw a decline in growth rates over the last two years, grew by 33%, buoyed by increased industrial activity and continued investment in road infrastructure. The passenger vehicle segment was favorably impacted by a reduction in excise duty on small cars and increased consumer spending.

In this scenario, Tata Motors has had another outstanding year. The Company out-performed the industry with record revenues and sales volumes. It significantly improved its market share in commercial vehicles, driven by the enormous market acceptance of the Ace 0.75-tonne pick-up vehicle. The Company also achieved its highest-ever sales volumes of passenger cars and utility vehicles during the year.

The Company has, over the past few years, followed a conscious strategy of expanding its product range and its geographic spread in order to reduce its dependence on one single economy and one single business cycle. This has led to the development of new products such as the Ace in the case of commercial vehicles, and the proposed small car, apart from serious expansion of exports and/or assembly activities in overseas markets.

As a result of this strategy, the Company has formed a joint venture in Thailand to assemble and market pick-up trucks in the Thai market, which is the second largest pick-up market in the world. The Company has also entered into a joint venture with the Brazil-based Marcopolo Company, to manufacture and assemble fully built buses and coaches in India. The Company has achieved great visibility in the passenger car markets in South Africa, Spain and Italy. It is now proposed that the vast markets of Latin American countries be jointly addressed with the Fiat Group, as part of the global alliance between the two companies.

During the year, construction of the new manufacturing plant (jointly owned with Fiat) at Ranjangaon has been progressing on schedule and will go on-stream in 2008. The Fiat relationship has further been strengthened through the execution of a Memorandum of Understanding with Iveco (the Fiat Group's commercial vehicle company), to explore opportunities for cooperation in engineering, manufacturing, sourcing and distribution of products, aggregates and components of commercial vehicles across markets. FIAT has also signed a licensing agreement with the Company to build a pick-up vehicle for sale in the Latin American market.

Tata Motors remains committed to launching its new small car in the first half of 2008. Construction work has commenced at the plant site at Singur in West Bengal. There is confidence that the Company's presence in Singur will result in the same positive impact on the communities in the area and in the state that its plants have had on the communities in and around Pune, Jamshedpur, Lucknow and Dharwad. In addition to the Company's own investment in Singur, large investments will also be made within the plant perimeter by a large number of automotive component suppliers and manufacturers who will serve the small car project. One hopes that the Company's bona fides and high sense of social responsibility will overcome the misplaced apprehensions and concerns which arose in the early days of the project.

There continue to be pressures on margins arising from rising prices of raw materials like steel, non-ferrous metals, rubber and engineering plastics. These will be partially offset by the cost reduction initiatives undertaken by the Company. However, the prices of most of these materials continue to spiral upwards for the second consecutive year and this may impact the Company's profitability going forward. The hardening of consumer finance interest rates and tight liquidity in the second half of the fiscal year under review, have already started to have an adverse impact on the automotive industry. If these trends were to continue, growth in the automotive sector could be adversely impacted.

Despite these bothersome trends, the years ahead for the industry and in particular for Tata Motors, although challenging, are years of great opportunity. The growth of the Indian market, the increased sophistication in components suppliers' capabilities and global sectorial competitiveness will result in the establishment of a world-scale

automotive industry. The challenge for Tata Motors will be to develop and produce technically-advanced commercial vehicles and passenger cars of world-class quality for the domestic and overseas markets. An impressive range of new products is planned to be launched over the next two years. This will be the most aggressive new product program in the Company's history. The focus has been on innovation and market leadership. The new Ace goods carrier and its passenger-carrying variants are such innovative products - the first in the industry. Similarly, the small car proposed to be launched at a price of around Rs. 1 lakh, will be a never-before-undertaken project which will hopefully create a new paradigm in the aspirational fulfillment of the lower-income segment of the people of India, Asia and Africa.

With intense global competition, the challenges will be great but with the spirit, commitment and dedication displayed by employees at all levels, these challenges will continue to be met and overcome. Tata Motors will strive to retain its leadership position in India while being increasingly recognized internationally as an emerging automobile company in the global marketplace.

The relative Explanatory Statement pursuant to Section 173 of the Companies Act, 1956, in respect of the business under Item Nos. 4 and 6 to 9 set out above and details under Clause 49 of the Listing Agreement with the Stock Exchanges in respect of Directors seeking appointment/re-appointment at the Annual General Meeting, are annexed hereto.
- b. A MEMBER ENTITLED TO ATTEND AND VOTE IS ENTITLED TO APPOINT A PROXY TO ATTEND AND VOTE INSTEAD OF HIMSELF AND THE PROXY NEED NOT BE A MEMBER. The Proxy as per the format included in the Annual Report should be returned to the Registered Office of the Company not less than FORTY-EIGHT HOURS before the time for holding the Meeting. Proxies submitted on behalf of limited companies, societies, partnership firms, etc. must be supported by appropriate resolution / authority, as applicable, issued by the member organization.

Tata Motors Limited

- c. Only registered Members of the Company may attend and vote at the Annual General Meeting. The holders of the American Depositary Receipts (the 'ADRs') of the Company shall not be entitled to attend the said Annual General Meeting. However, the ADR holders are entitled to give instructions for exercise of voting rights at the said meeting through the Depository, to give or withhold such consents, to receive such notice or to otherwise take action to exercise their rights with respect to such underlying shares represented by each such American Depositary Share. A brief statement as to the manner in which such voting instructions may be given would be sent to the ADR holders by the Depository.
- d. The Register of Members and Transfer Books of the Company will be closed from Tuesday, June 5, 2007 to Tuesday, June 12, 2007, both days inclusive, for the purpose of payment of dividend to those Members whose names stand on the Register of Members as on June 12, 2007. The dividend in respect of Ordinary Shares held in electronic form will be payable to the beneficial owners of the Ordinary Shares as at the end of business hours on June 4, 2007, as per the details furnished by the depositories for this purpose.
