## CHAIRMAN'S STATEMENT

Dear Shareholders,

The recent market and industry sentiments confirm what has been well known for quite some time: the Indian economy is losing some momentum. The most important question is whether the current year will be an aberration or has India settled on a lower growth trajectory? The earlier dreams of sustaining a double-digit growth trajectory may seem illusory now, and while the Indian economy is expected to grow at 6.9% this fiscal year, it represents the slowest pace in three years.

Despite this dampening of the general economy, 2011 has been a relatively successful year at Timken India Limited. Our successful operations allowed us to declare an interim dividend of Rs. 20/- per equity share of face value of Rs. 10/- each fully paid on the equity shares of the company for the financial year 2011-2012.

Our customers remain a key part of our business. Flowing from our legacy and our vision, we apply our knowledge of friction management and power transmission to improve our customers' performance and deliver unparalleled value and innovation. This helps increase profitability for our shareholders, who support us in all our endeavors. We continue to listen to the needs of our customers to be even more responsive and adaptable as a partner in their growth and development. Following this philosophy globally, The Timken Company has acquired the assets of Philadelphia Gear Corp. and Drives LLC. These new acquisitions strengthen our efforts as a leader in friction management and mechanical power transmission solutions. We are working closely with them to take full advantage of more than 100 years of engineering experience as we expand their reach around the world.

Even as we make progress on our journey to become a stronger company in India and around the world, we stay the course our founder set for us in the early days of the company. Our core values – Ethics & Integrity, Quality, Innovation and Independence – serve as our compass. They remain at the heart of our culture and guide us in our daily work as we chart a course to more profitable growth.

We understand that adherence to these values is essential to our success. The company has undertaken substantial transformation over the past decade, emerging with an increased product portfolio. From Timken® steel housed units, Quick-Flex™ couplings, high-performance Timken spherical roller bearings, Timken cylindrical roller bearings and line extensions to existing products with increased ratings across the spectrum of our tapered roller bearings, we work hard to earn your trust and confidence as we continue to evolve our company for value creation.

On behalf of the Board of Directors, I would like to express our sincere gratitude to all our stakeholders. To our shareholders, thank you for your continued support and confidence. To my fellow board members, management team and employees, thank you for your hard work and commitment. To our customers, suppliers and business partners, we gratefully appreciate your trust and confidence in us and look forward to many more years of support.

Yours sincerely,

**James R. Menning**  
Chairman

Inventory management continued to remain under focus of the management team.
