New additions to the Product mix

With the introduction of UltraWhite maplitho, TNPL has added another premium product to its portfolio. This super bright, surface-sized paper has been specially made for high quality multicolour printing applications.

UltraWhite maplitho

TNPL's latest premium product defies all logic of brightness versus opacity. This super bright, surface-sized paper has been specially made for high quality multicolour printing applications.

UltraWhite maplitho is best suited for most corporate applications like brochures, calendars, diaries, balance sheets, etc. This branded paper will soon be made available in 60, 70 and 80 gsm in convenient packs of 250 sheets.

TNPL UltraWhite maplitho - the fairest of them all.

TNPL - building brand equity

Conventional paper today has given way to different forms of ready-to-use converted products that are oriented towards the everyday needs of the discerning customer. Tapping this potential, TNPL has rightly entered the segment with various products ranging from cut-size office stationery to notebooks and other premium products for writing applications.

TNPL products have won the acclaim of the Indian as well as the international community. TNPL places great emphasis on studying the market trends and effecting constant improvements almost on a day-to-day basis.

Products par excellence

TNPL Copier - new wine in new bottle

TNPL's Copier has established a very good niche in the office stationery segment.

TNPL Copier is marketed in attractive packing of 500 sheets in A4, A3 and Folio sizes.

OS2000 - a continuing success story

TNPL's OS 2000 has become a great success ever since its launch few months back. Feedbacks reveal that consumers are becoming aware of the

great potential and versatility that this paper offers. This extra-bright, multipurpose office stationery is suitable for a variety of high end corporate printing applications.

TNPL's Maplitho range - a solution for every need

UltraWhite Maplitho: Surface sized, extremely bright (90%+), with a high degree of opacity, ideal for high end multicolour printing.

Excel Maplitho: Surface sized, bright, ideal for general and multicolour printing and varnishing.

Hi-Tech Maplitho: High bright, ideal for printing of quality text books, diaries, calendars, etc.

TNPL Notebooks - the consumers love them

Realising the high demand for notebooks of high quality at reasonable prices, TNPL rightly introduced attractive, well-finished notebooks that have today become the hot choice of retailers and institutions.

Computer Stationery

TNPL is a major producer of Computer stationery in India.

TNPL paper has many salient features and has been tested to suit most high speed line printers. TNPL has established itself as a household name in the Computer stationery segment.

New projects aimed at increased capacity

The company has announced plans to rebuild its paper machine I and paper machine II. The rebuilds are scheduled to be completed by the end of 2001 and will increase the capacity of the company.

Beloit - paper machine I

TNPL has taken up rebuilding its paper machine I. This will help increase the machine speed from its present operating speed of 600 mpm to 725 mpm resulting in an additional production of about 25,000 mts per annum.

Voith - paper machine II

The rebuild of paper machine II has also been taken up simultaneously, and this would increase the machine operating speed from its present 750 mpm to 950 mpm to achieve an additional output of 25,000 mts per annum.

ANNUAL REPORT

New projects aimed at increased capacity

In order to increase its capacity TNPL has entered into an agreement with M/s Voith, Germany to rebuild both its paper machines in a cost-effective way.

Beloit - paper machine I

TNPL has taken up rebuilding its paper machine I. This will help increase the machine speed from its present operating speed of 600 mpm to 725 mpm resulting in an additional production of about 25,000 mts per annum.

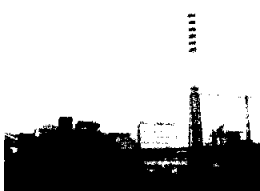

Voith - paper machine II

The rebuild of paper machine II has also been taken up simultaneously, and this would increase the machine operating speed from its present 750 mpm to 950 mpm to achieve an additional output of 25,000 mts per annum.

TNPL has applied the latest of technologies in its various activities and has reaped rich dividends. From achieving 100% self sufficiency in power to introducing the latest computerised management systems, TNPL has stood out as the Company of the future.

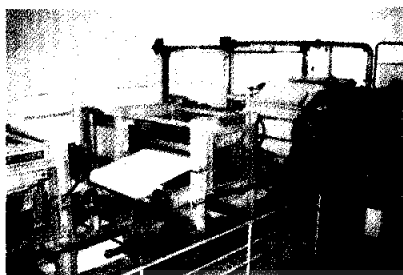

Modernisation - key to TNPL's success

Harnessing power - totally in-house

To enhance its cogeneration facility and attain 100% self-sufficiency in power, a multi-fuel boiler of 90 tph capacity along with a turbo generator of 24.62 MW capacity have been installed. Surplus power available is proposed to be exported to the State grid.

TNPL's windfarm capacity has been further expanded to 18 MW and the entire power (being surplus) is exported to the State grid.

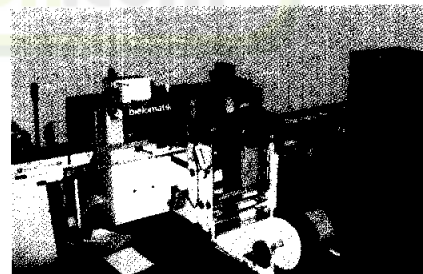

Wetlapping machine

TNPL has successfully commissioned the wet-lap machine. The machine facilitates optimal utilisation of the pulping capacities.

Bielomatik

A state-of-the art packaging machine that can automatically cut paper from reel to finished sheets; the paper counting, wrapping and constructing and loading into cartons is also fully automatic. The machine, with a capacity of 50 tonnes per day currently packs TNPL's OS 2000 and Copier papers.

Online Integrated Information System

TNPL has implemented the **Online Integrated Information System (OIIS)** jointly with CMC to cover all areas of operation. A Wide Area Network (WAN) has been created, connecting the Factory and Corporate Office, facilitating transfer of data online.
