Review of Operations

During the year under review, the company's sales and other income was 1423.14 Lakhs. The entire turnover of the year is achieved from the Optical Fibre Unit. Overall the market condition of OFC was not encouraging during the year and the order booking status was not as expected. Your company is thriving hard to survive in the price war by implementing various cost-cutting and value engineering measures in the manufacturing operations.

Your Company successfully developed 500 meters span of ADSS cable for Power Sector and 144 fiber dry core type cable for exports.

You are aware that BIFR has issued a Sanctioned Scheme to the Company on 21.07.2010. As per the Sanctioned Scheme the Board of Directors have issued 1,54,32,700 equity shares of Rs.10 each to M/s. Telecommunications Consultants India Limited (TCIL), 42,47,500 equity shares of Rs.10 each to State Bank of India, 20,70,600 equity shares of Rs.10 each to Andhra Bank and 12,65,200 equity shares of Rs.10 each to Punjab National Bank by converting part of the loans into equity. The shares in physical format were issued on 14.09.2010. Out of the bridge loan of Rs.12.50 crores from TCIL as per the Sanctioned Scheme of BIFR, the Company has availed Rs.11.66 crores towards OTS to consortium bankers and towards the Tamilnadu Government land in possession of the Company. With the above restructuring the net worth

has become positive. However during the year the desired results as projected in the Scheme couldn't be achieved due to OFC market conditions.

Market Scenario and Outlook

Though the OFC market condition in India was not encouraging during 2010-11, with the Government's decision to expand the broad band connections to cover the villages in India, the OFC market will again pick up and will grow further in future. MTNL and BSNL are both focusing on Fibre Termination To Home (FTTH) deployment as this gained momentum across the Globe. The demand for data services is increasing. The company expects that OF telecom cables sector to increase in volumes in the back-drop of the increased plan of BSNL for deployment of high fibre count OFC for inter exchange links and long-haul projects is likely to provide the much needed fillip for Ribbon type Optical Fibre Cables. This may reinforce and add to the competitive strength of the company which is one of the few players equipped to manufacture Ribbon type of OFC in India.

The industry also expects the advent of Conditional Access System (CAS) and broadband applications to spur the growth of optical fibre cable networks in the coming years. In power sector ADSS cable applications are increasing day by day.

During the year under review your company has been able to export Optical Fibre Cables on favourable terms through the Company's promoters, i.e., TCIL for their projects abroad. The optic fibre industry at home is also poised for a period of significant growth and the demand is expected to match the current availability in the months to come. This favourable trend is expected to continue at least over the next few years. The company continues to take all initiatives to retain the competitive edge and be in a position to meet the requirements of the market. The medium / long-term prospects will augur well for the company. The company continues to emphasize on cost cutting through enhanced productivity, reduction in logistics and other costs. The company will continue its efforts to further prune all its fixed costs including administrative and discretionary overheads.

Cautionary Statement

Statements in the Directors' Report and Management Discussion & Analysis contain forward looking statements. Actual results, performances or achievements may vary materially from those expressed or implied, depending upon economic conditions, Government policies, subsequent developments and other incidental factors.

Risk & Concern

The industry is facing challenging cost pressures due to overall reduction in sale value of cables. Costs of major raw materials are increasing as the market is volatile due to frequent changes in crude oil price. The competition within OFC business is becoming fierce due to emerging new technologies and frequent new product

TAMILNADU TELECOMMUNICATIONS LIMITED

introductions in Optical fibre products which command competitive prices and preference in the market.

Auditors' Report

Clarification on Auditors observations is given below:

Para No.4. The Impact on the accounts could not be ascertained due to adjustments if any required on account of non confirmation of balances of Debtors, Creditors and Loans and Advances as referred in Note No.3.

Though the Company has sent request for confirmation of balances the same are subject to confirmation. However the Company is collecting its realizations regularly and do not see any scope for adjustments as observed by the statutory auditors.

Para No.5. No provision is made for an amount of Rs. 365.40 lakhs (Previous year Rs.352 lakhs) in the financial statements for certain long outstanding

debtors for which the recoverability is dependent on judgement of Court of Law as referred to in Note No.4. The loss for the year would have been higher by the said amount and consequential impact in accumulated losses in profit and loss account, reserves and surplus.

No provision is made for Rs.352 lakhs in view of the arbitration proceeding completed against the purchaser for which the award is received in favour of the Company but has since been challenged by the Purchaser in the court. In one case the matter has been remitted by the Court to the Arbitrator for speaking orders. Arbitration is in progress and the decision is expected shortly, hopefully in favour of the Company. Regarding Rs.13.40 lakhs case the Arbitration proceedings are in progress and expected to be in favour of the Company. In view of this the Company is of the opinion that these will not have impact on the losses.

Item No.8 of the Annexure to the Auditors Report

According to the information and explanations provided by the management, the Company has taken a secured loan from one of the companies listed in the register maintained under section 301 of the Companies Act, 1956. This is as per the Sanctioned Scheme issued by BIFR. **The maximum amount due during the year and the amount due as at 31st March 2011 was Rs. 1165.73 lakhs.** There are no over dues in this account.

This loan is the recent bridge loans availed as per the Sanctioned Scheme of BIFR under the rehabilitation scheme.

Item No.9 of the Annexure to the Auditors Report

In our opinion the rate of interest and other terms and conditions on which the Loans have been taken from the company listed in the register maintained under section 301 of the Companies Act, are not, prima facie, pre-judicial to the interest of company. **The interest due amount as at 31st March 2011 is Rs. 0.42 Lakhs.**

This interest is towards the recent bridge loans availed as per the Sanctioned Scheme of BIFR under the rehabilitation scheme. The interest is being settled in phased manner out of the realizations.

Item No.13 of the Annexure to the Auditors Report

According to the records of the Company, the Company is regular in depositing with appropriating authorities undisputed statutory dues including Provident Fund, Investor education protection fund, Employees State Insurance, Income-Tax, Sales-Tax, Wealth-Tax, Service Tax, Customs Duty, Excise Duty, profession tax, Cess applicable to it. **However TDS of Rs.6.07 lakhs has not been deducted during this year**

Company is remitting regularly PF, ESI, Excise duty, Cess, Service tax, Sales tax, TDS etc., Regarding Rs.6.07 lakhs, this pertains to TDS on interest amount set off by lender against the payable by it to TTL. Due to cash crunch, the company is suffering and is expected to improve in future. **However this TDS amount has been deducted and remitted subsequently.**
