DIRECTORS' REPORT**To The Members,**

Your Directors are pleased to present the Twelfth Annual Report on Company's business and operations and the audited accounts for the year ended 31st March, 2000.

1. TURNOVER AND PERFORMANCE

Your Directors wish to report that the year 1999-2000 ended with a total income of Rs. 1103.81 Lacs registering a modest growth over the previous year inspite of the continued depressed market situation during the major part of the year. At operating level, your Company continued to earn profit consistent with earlier years. However, due to high incidence of interest burden, the net performance resulted in a loss of Rs. 123.27 Lacs as compared to Rs. 255.15 Lacs in the previous year.

2. OPERATIONS AND BUSINESSES

During the year under consideration, with the objective of popularizing the concept of owning an aircraft amongst the Corporates in India, your Company introduced a fractional-ownership scheme called Corporate Aircraft Program (CAP). This scheme has been received very favourably by Indian Corporates and has brought into the Company's fold, 3 more new clients during the year under review.

The leading business organisation in the country, the CII are so enthused with the concept of fractional-ownership that they have agreed to jointly sponsor a series of Seminars with your Company to popularise the concept, throughout India.

With the buoyancy in the general economic environment in the recent past, there have been a marked increase in trade enquiries for aircraft which your Directors feel would help the Company in improving the volume of aircraft sales significantly in the current year and the years to come.

Your Company's Air-charter business maintained its level of operations in the year under consideration and was instrumental in conversion of some of the charter users into aircraft owners. In addition to the Southern, Western and Northern India Air-charter bases, your Company has established a base in Eastern India in Calcutta recently, to meet the requirements of North-Eastern sectors. With the establishment of these bases, your Company has been able to establish the largest all India charter net work with a modern fleet of aircraft manufactured indigenously.

Your Company has recently entered into an Memorandum of Understanding with the Karnataka State Tourism Development Corporation for the use of our aircraft, on a commercial basis, in exchange for wide publicity to be given to TAAL's Air-charter business at all the Airports in Karnataka, without charge.

The All Composite Trainer Aircraft "Hansa-3" developed for the first time totally in India by National Aerospace Laboratories (NAL) in association with your Company was cleared for Airworthiness by Civil Aviation Authorities paving the way for Commercial Production of the said Aircraft. Your Company has entered into a Memorandum of Understanding for manufacturing the first batch of 5 aircraft with NAL mainly for flight training in the current year. In addition, there have been a few Global enquiries, the feasibility and prospects of which are under review.

Your Company could accomplish a significant volume of work for manufacture of tools, parts and prototype assembly for the Multi Role Light Transport Aircraft. Your Directors wish to report that the work on this front is progressing as per the time schedule and your company would be able to contribute substantially in this developmental work of National importance.

The high technology Transducer Housing assembly developed indigenously by your Company for the first time for a leading National Technological Developmental Laboratory was well received and the contributions of your Company and it's commitment to work was placed on record by the Developmental Organization. Your Company's associations with other National aircraft development and manufacturing organisations, established over the years were strengthened further with your Company providing multi-faceted manufacturing and developmental support to them.
