

20TH ANNUAL REPORT 2009

FINANCIAL HIGHLIGHTS

engineering creativity

Even as technologies converge and products become multi-functional, consumers are demanding simplicity and ease-of-use.

A mobile phone is no longer just a phone to make calls – it is a music and video player; it is a camera; it is your personal organizer; your mailbox and much more.

Home entertainment is no longer just a TV in the living room it is a media server, a multi-room entertainment center and more.

We at Tata Elxsi, excel in bringing together technology and engineering expertise, and binding them with form and usability that appeals as much to the heart as to the mind.

This multifaceted technology expertise and management of constraints in product design and engineering - of technology, cost, performance and more, sets us apart as leaders in embedded product design.

We go beyond software, hardware and system engineering - we impart aesthetics, ergonomics and ease-of-use to technology products through our award-winning industrial design team.

We bring movies to life, through creative and technology leadership in animation and visual effects, benchmarking ourselves to the best in the world.

This harmonious blending of form and function, creativity and engineering, pervades everything we do.

We are TATA ELXSI – we are Engineering Creativity!

CONTENTS

- **02** Embedded Product Design Services
- **03** Industrial Design Services
- **04** Animation and Visual Effects
- **05** Systems Integration Services
- **06** Vision and Mission

Embedded Product Design Services

IDE - Industrial Design Division

Animation and Visual Effects

Visual Computing Labs (VCL) is an animation, visual effects and game asset building facility servicing production houses worldwide, intersecting high creativity with leading-edge technology.

VCL addresses its customers' pre-production, production and post-production requirements (including character design, asset building, animation, high end visual effects, compositing, virtual sets)

VCL boasts of a diverse portfolio of Hollywood productions including Into the Blue (for MGM), and One Night with the King. Its equally strong India portfolio comprises of movies such as Ta Ra Rum Pum, Kabhi Alvida Naa Kehna, Dhoom 1 & 2, Fanaa, Rang De Basanti, Taare Zameen Par, Rab Ne Banaa Di Jodi, Jodhaa Akbar and Roadside Romeo is India's first fully animated 3D film co-produced by Walt Disney and Yash Raj Films. This film was nominated for the prestigious Visual Effects Society (VES) Awards.

VCL has also created 3D animations for popular international television series and commercials for clients as diverse as Coke, Hindustan Unilever, Reebok and Wrigley.
