TATA SPONGE IRON LIMITED

*Chairman's Statement***Dear Shareholder,**

There were signs of revival of the Indian economy in the early part of the year, which could not be sustained throughout the year. According to an economic survey all monetary indicators were better than ever before and despite this there came a decline in GDP growth at 5.4%. What particularly alarming was the unsatisfactory performance of the infrastructure industry which uses mainly long products and which in turn affects demand for sponge iron.

However, the economic conditions and demand for sponge iron remained favourable during the first half of the year, which yielded good profits to your company. Then, there was sharp economic slump from midyear. The situation deteriorated further after the 9/11 disaster in New York. Pressure mounted on selling prices and margins shrunk during the 2nd half. However, the financial year has ended with a promising note.

The Company could achieve higher production, product despatches and average net realisation, which have resulted in a fairly decent profit. Encouraged by these results, the Board has recommended an interim and final dividend of 20% for the year 2001-02.

A noteworthy achievement during the year was the successful commissioning of the new 7.5 MW Power Plant in December, 2001 ahead of schedule. There exist opportunities for installing additional power generation facilities in the future.

The mushrooming of sponge iron plants, particularly in the eastern region, the dumping of cheap imported scrap into the country and the rising cost of coal are the challenges being faced by the Company. The Company management is planning ways and means to counter these threats to remain profitable. Your Board of Directors will also discuss these issues at length to seek a solution to the problems being encountered by the company management and prepare a plan of action for implementation.

There is a case for the lowering of customs duty from 25% to 5% for non-coking coal for the sponge iron industry as has been done for the Corex process. We also expect that the Government of Orissa will implement its IPR-2001 fully and make it possible for the company to sell its surplus electricity to 3rd parties as has been enunciated in the government's policy document.

The spirit of the people at TSIL has always been the Company's greatest strength. Therefore, I wish to place on record an appreciation for the excellent co-operation and contribution made by the employees of the company and the Committee of Workers to the continued growth of the Company.

It was a proud privilege and honour for your Company to have received on its premises, the Hon'ble Governor of Orissa on 5th April, 2002 for a tour of the Works at Joda and a visit to the company colony with the District Collector, Keonjhar. He was very pleased after the visit and complimented the company management for the good work it is doing for its employees and for the surrounding community.

DIVIDEND

3. Directors were pleased to announce an interim dividend of 20% on 1,54,00,000 equity shares of Rs. 10 each for the Financial Year ended 31st March, 2002, at the Board Meeting held on 16th May, 2002. In order to meet financial obligations of just completed power plant, the Board does not recommend further dividend this year.

OPERATIONS

4. During the year the Company produced 2,28,346 MT of Sponge Iron compared to 2,13,036 MT in the previous year thereby registering an increase of 6.37% in the capacity utilisation.
Further, the despatches during the year totalled to 2,27,853 MT compared to 2,13,233 MT in the previous year registering an increase of 7%. Despatches by rail rakes increased by 10% over the previous year.

FINANCE

5. The Company's requirement of long term finance has been sourced from the banks at their minimum lending rates. During the year some costly debts were swapped with cheaper debts in order to achieve savings in interest cost.
The Company borrowed the short term requirement of funds from the banks only to the extent of the needs and utilised well within the norm.
The Company has been regular in servicing its debts during the year.

POWER

6. The installation of a captive power generation plant started during 2000-2001 has been completed ahead of schedule and commissioned in December, 2001. This power plant, which utilises the waste heat of the hot spent kiln gases, has reduced the Company's dependence on external power supply brought down the overall cost of production and improved the environment at the same time.

TATA BUSINESS EXCELLENCE MODEL

7. The Company is endeavouring to implement the JRD-QV process and adoption of the Tata Business Excellence Model as a frame work for managing the Company. This will help in catering to customers' and shareholders' rising expectations. Previous year, the Vision and Mission of the Company were finalised along with strategic

TATA SPONGE IRON LIMITED

goals, which have been identified and initiative for achieving these have been taken. During the year, three quality councils have been formed namely, Apex Quality Council, Quality Council for Works and Quality Council for Commercial & Administration. The Board has also taken steps to enter into the Brand Equity and Business Promotion (BEBP) Agreement with M/s. Tata Sons Ltd. in order to reap the benefits of TATA brand.

ENVIRONMENTAL ISSUES

8. Your Company has always been concerned with the protection and improvement of the surrounding environment. Emission and ambient air quality are regularly measured and corrective/preventive actions are taken wherever necessary. Management has initiated action to eliminate chance pollution and a green belt has already been developed around the plant. The work on implementation of the Environmental Management System (EMS) for meeting the requirement of ISO-14001 standards is in advanced stage. Accordingly, steps have been initiated to formulate environment management plans and to implement the same. An Environmental Policy was declared by the Company in the recent past in line with the requirements of ISO-14001 standards. A system covering all the requirements of the ISO-14001 clauses was prepared and documented, and also implemented. An apex manual has been prepared. Departmental and functional heads are being encouraged to bring about further improvements and to activate operational controls to reduce and prevent any adverse impacts on the environment.

Training on Awareness of the Environment has been imparted to all employees. The Company is hopeful of obtaining the ISO-14001 certificate in the near future.

QUALITY

9. The certificate for ISO-9002 quality standards is being maintained.

AWARDS

10. During the year, the Company received a Certificate from Govt. of Orissa awarding second position in Lowest Severity Rate of Accident for the year 1999-2000.

LISTING FEES

11. The Annual Listing Fee for the year 2001-2002 has been paid to those Stock Exchanges where the Company's shares are listed.

DIRECTORS

12. Mr. P. K. Jha, who was appointed Additional Director on 18th January, 2002 and who holds office till the ensuing Annual General Meeting, has been proposed in writing by a shareholder for the office of the Director.
13. Mr. N. P. Sinha, who was nominee of the Tata Iron and Steel Company Ltd. (Promoters) relinquished his office on 18th January, 2002. A resolution pursuant to Section 256 of the Companies Act, for not filling the vacancy caused by Mr. Kale's retirement has been included in the Notice of the Annual General Meeting. He has been a Director of the Company since January, 1998. The Board would like to place on record their appreciation for the rich contributions made by Mr. Kale.
17. Mr. P. K. Lahiri and Mr. A. D. Baijal retire by rotation and being eligible, offer themselves for re-appointment.

SOCIAL RESPONSIBILITY

18. The Social Responsibility forms an integral part of the Company's Vision & Mission. To meet this responsibility, the Company continued its peripheral & rural development activities with greater vigour. During the year, your company expanded its coverage area from one Gram Panchayat (10 villages) to five Gram Panchayats (about 50 villages).

In order to solve the drinking water problem, new tube-wells and ring-wells were installed and existing tube-wells were maintained. Augmenting the educational facilities, the construction work in Belieipada High School was completed, test books were supplied to the High Schools/M.E. Schools and a set of steel benches & desks also provided. On the medical front, the Company organised Free Rural Health Service Camps in nearby villages. Sports goods were provided to youth and school students and co-sponsored a football tournament in a nearby village. To assist in agriculture and farming, paddy winnowers and sprayers were also distributed to needy villagers.
