Chairman's Letter to Shareholders

Dear Shareholders,

The planet, country and your company entered financial year 2020 with a very different look than it exited the year. COVID is a macroeconomic and civilizational cataclysm whose consequences are unmodellable. We are all in the same state, and as can be expected, any crisis simultaneously creates pain and opportunities and COVID will be no different.

At the time of writing this letter two unanswered questions - probably unanswerable - linger over the economic recovery. First, whether we are at the start, middle of end of the virus. Second, whether consumers and companies will

be frugal (save for a rainy day) or be hedonistic (live for today). The contours of the economic recovery - v-shaped, u-shaped, i-shaped or bathtub shaped - will only become clear when the economically debilitating and somewhat blunt economic lockdowns end. Some say this may only be possible when a vaccine emerges. And there is no certainty when it would. Given this uncertainty, this letter is organized into four clusters; macroeconomic challenges, company challenges, opportunities and strategy.

The macroeconomic challenges caused by COVID for financial year 2021 are substantial. These

challenges encompass land, labour and capital but it's important to not confuse the symptoms - Migrant Labour return, MSME solvency, Fiscal deficit, Bank Stress, Wage Freezes, Unemployment, etc - with the disease. COVID has only highlighted India's pre-existing conditions; inadequate financialization, urbanization, industrialization, formalization and skilling.

The challenges caused by COVID for TeamLease arise from its impact on our customers in our three clusters of Employment, Employability and E-workforce. Customers in employment in all three segments
