MANAGEMENT DISCUSSION AND ANALYSIS REPORT

THE PRESENT STATUS OF THE COMPANY

At present the manufacturing plants at Chingavanam are not in operation. The Board of Directors had appointed an agency to study Techno-Economic viability for manufacturing Ferro Silicon. However the resumption of manufacturing activity could not be taken up due to various issues yet to be sorted out with state Government, Labour Unions and other concerned Authorities.

The Board of Directors are of the opinion that on satisfactory resolution of the pending issues, the Company can commence manufacturing operations partially to begin with. Since the manufacture of Calcium Carbide and Acetylene Black are not viable due to high cost of production only Ferro Silicon plant may be re-opened. The Techno- Economic viability study shows that Ferro Silicon has enough demand in domestic as well as overseas markets and the manufacturing operations are also viable.

INDUSTRY STRUCTURE AND DEVELOPMENTS

Due to cheap imports, high labour and power cost the prices of Calcium Carbide and Acetylene Black continue to remain unremunerative. However the prices of Ferro Silicon, inspite of cost escalation, still provides some margin.

OUTLOOK, OPPORTUNITIES AND THREATS

The Board of Directors have made strenuous efforts to reduce administrative and other costs significantly. The Company has become a debt-free Company due to settlement of liabilities with the Financial Institutions and Banks and repayment of redemption liabilities towards Tecil Power Bonds.

Hence on satisfactory resolution of the pending issues, the manufacturing operations can be partially taken up and the outlook of the Company looks better.

There are five major Silicon producers in the world :- China, Russia, Ukraine, Brazil and Norway. The major consumers are China, Japan, USA and Russia. Ferro Silicon is mainly used in Steel production and also used by Magnesium smelters.

The global economic crisis poses a threat. However the recession in US and other economies seems to show receding trends. Hence it appears that by the time the Company takes up manufacturing operations the demand for Silicon will be buoyant.

FINANCIAL PERFORMANCE

During the year under report the Company has carried out trading activities in chemicals. After providing for Interest and Depreciation for the year was Rs.55.77 Lacs as against the loss of Rs. 307.08 Lacs in the previous year.

HUMAN RESOURCES

Material development in human resources/ industrial relations front has been dealt with in the Directors' Report, under the head 'Operations' and 'Industrial Relations', which should be treated as forming part of this Management Discussion and Analysis. As at 31st March, 2009

CAUTIONARY STATEMENT
