INDUSTRY SCENARIO

For the last couple of years the aqua culture industry is facing lot of problems like lack of demand, reduction of selling price in international market and also virus affects to the product.

The Company's own hatchery is not operated through out the year due to the lack of demand. Our hatchery capacity is very large and due to the bad industry's condition there is no demand for the product. It is not feasible to operate the hatchery for a small quantity hence it is kept idle.

In the year under review, the significant steps have been taken for revival of the Company. The Company has settled the loans taken from SBT, Eluru Road, Vij, SBI, Patamata, under one time settlement and pursuing the other banks also for settlement of their dues. In this regard the directors have taken decision to sell a small piece of land which is not aqua culture land in order to settle the bank dues and to meet the working capital needs.

As per the MPEDA vision report the coming years are good for the Aqua Culture units. Accordingly the directors anticipate that in the coming years the prospects of the Company will be good. In this direction the directors are taking necessary steps for improvement of the company business.
