Your Directors are pleased to report that during the year under review, the Company's turnover increased to Rs. 15010 lacs, as against Rs. 14052 lacs of the previous year, and Profit after Tax to Rs.407.28 lacs, as against Rs.272.99 lacs of the previous year. Your Directors are happy to recommend a dividend of 15% on equity shares for the year.

Your Directors, in their last report, had apprised you of a major ongoing re-structuring exercise undertaken by the Company,

including the relocation at Agarpara Works of the activities earlier carried out at the Company's Sodepur and Panihati Works. Now they are able to report with satisfaction that this integration of operations has resulted in substantial savings in overheads, and rise in operational efficiency and capacity utilisation. The drive to render the operations further cost-effective is continuing unabated.

OPERATIONS (ENGG. DIVNS.)

During the year under review, the Railway Board had ordered 20,250 FWUs on the Industry, which was substantially higher, compared to only 10,000 FWUs ordered in the previous year. Notwithstanding such increase in the order level, your Company's share thereof was only 1857 FWUs, as against 1447 FWUs in the previous year. In spite of the Company admittedly being the best performer in the Industry over the past decades, it lost out on receiving its fair share of the wagon orders from the Railway Board, owing to unfair competition by some new entrants in their desperate bid to secure more orders. Unfortunately, proper weightage does not appear to have been given to performance and past track record of the wagon manufacturing units by the Railway Board while scrutinizing the Tenders. This is borne out by the fact that whereas your Company entirely fulfilled its contractual delivery schedule within 31st March, 2001, the other wagon-builders were left with substantial backlogs as on 31st March, 2001. Your Company has accordingly made appropriate representation to the Railway Board for equitable distribution of orders relative to individual performance of the manufacturers.

However, it is gratifying to note that the Company's outstanding credentials in the field of wagon-building and observance of delivery schedule have stood it in good stead in respect of direct tenders by end-users for specialised wagons. This enabled the Company to turn out an aggregate of 2657 FWUs, as compared to 2192 FWUs during the previous year.

For the current year, there is a Budgetary provision for procurement of 23,000 FWUs by Indian Railways. Unfortunately, there is delay in the Railway Board releasing the orders, as it is reportedly engaged in re-assessing its actual requirements.

The Company has received an order for 100 VUs (250 FWUs) Bogie Flat Container Wagons from Bangladesh Railway valued at Rs. 1400 lacs, which will be delivered during the current year.

In the Steel Foundry Division, the production increased from 3468 tonnes to 4843 tonnes, and the despatches from 3748 tonnes to 4624 tonnes. The Foundry capacity was largely utilised for captive requirement of the Company's Wagon Division. The production of Couplers has been successfully established. Since there has been substantial expansion of the Steel Foundry, it has started catering to the requirements of other wagon builders too. Thus, the Company, as the largest wagon builder, is fully self-reliant to meet its requirements of major inputs, viz Bogies and Couplers, for its wagon production programme.

In the Structural Divn., as indicated in the previous Report of your Directors, the Company bagged significant orders for hydro-mechanical equipment during the year – an area of operation where it is the acknowledged leader in the country. There is a spurt in indigenous demand thereof, following the Govt. of India's thrust for development of hydroelectric projects. Your Company expects to secure further sizeable orders in the near

future in this area. The Structural Division is expected to emerge as a major Division of the Company and contribute significantly to its working results in the coming years.

The activity in Water Tube Boiler/Pressure Vessel Division was maintained during the year. The Sugar Machinery Division, however, registered a substantial deceleration in the face of stiff competition owing to excess capacity. The outlook for this Division is likely to improve with the revival of the Sugar Industry which is expected to materialize soon.

PROSPECTS

In keeping with the market leadership enjoyed by the Company in wagon building, it is planning to take up manufacture of modern and specialised freight cars, as against conventional ones, for petroleum products and chemicals, powdery and granular products in bulk, as also automobiles and steel coils. In this endeavour, the Company proposes to forge alliance with leading manufacturers of the world to access the best and proven designs and technology. In furtherance of its diversification programme, the Company has taken up the production of Power Tillers under the brand name 'DHANWAN', and the initial reports on field trials are fairly encouraging. Besides, the Company has set up a modern composite printing press at its Panihati premises, which is being run under a working arrangement with The Hindustan Times Ltd. to print local edition of their English daily newspaper and periodicals, journals, etc. It must be highlighted, however, that despite all efforts towards diversification, the Company's fortunes in immediate future still continue to be substantially linked with the wagon orders' quantum and pricing aspects, which are totally under the control of the Railway Board.

REAL ESTATE

The Company has not yet received requisite approvals from the various Govt. Authorities and Departments for the development of the Company's land/properties at Sabjimandi and Sahadra in Delhi. There are certain issues still pending before the Hon'ble Supreme Court for review and final decision. It is hoped that all the attendant problems/matters will be sorted out in near future.

The Commencement Certificate from the Municipal Corporation of Greater Mumbai regarding Worli land is yet to be received. The same is shortly expected whereafter the development of the property will be taken up.

INDUSTRIAL RELATIONS

The Company's cordial Industrial Relations continued to be the hallmark of its operations, and your Directors appreciate the sustained support and co-operation of the workmen, staff and officers to improve the Company's working in the face of growing competition.

DEMATERIALISATION OF SHARES

Pursuant to the directions of the Securities & Exchange Board of India, trading in the Company's scrips in dematerialised form has been made compulsory for all investors, effective 26.12.2000. However, members are free to keep the shares in physical form or to hold the shares with a 'Depository Participant' in demat form. The shares once dematerialised can also be re-materialised at any time.
