TEXMACO LIMITED

Annual Report 2009-10

Ready for the
global connect
through strategic partnerships

Leveraging the rich past, preparing for an exciting future.

Texmaco set out seven decades ago in 1939 on a unique journey to create a footprint on the industrial road map of the country. It pioneered 'Many a first' in various key engineering sectors such as, Textile Spinning Frames, Boilers, Hydro-mechanical Equipment, Sugar Machinery and Railway Freight Cars. It has since emerged as a leading engineering company with one of the best manufacturing infrastructure.

The Company enjoys unrivalled leadership in the manufacture of new design hi-capacity Stainless Steel freight cars, and Hydro-Mechanical Equipment for Mega Hydro-Power Stations across the country.

In the fast growing Indian economy, the Company is ready to take a big leap in the infrastructure sector with its reservoir of engineering skills and experience built over several decades. Its performance track record in domestic and international markets is promising for its launch into a new growth trajectory.

Our businesses

Rolling Stock

The Company's Rolling Stock Division started its operation in 1954. It pioneered the export of wagons during mid-sixties. The Division manufactures general purpose and commodity-specific special wagons catering to the Indian Railways and core sectors across the industry. It has emerged as the largest wagon manufacturer in India with outstanding infrastructure facility.

Steel Foundry

Backed by extensive experience of the last seven decades, the Company embarked on a new State-of-the-Art Steel Foundry in 2007, the best and the largest Steel Foundry in India. This Foundry has put the Company on the global map for outsourcing highly intricate steel castings by renowned international buyers. The Foundry has earned the distinction of Quality Assurance Certificate (M-1003) from AAR (Association of American Railroads), making it the only Foundry in India qualified to export railway castings to the North American market. Recently, it was crowned with the "IIF Foundry of the Year 2009" by The Institute of Indian Foundrymen.

Hydro Mechanical Equipment & Steel Structural

The Division pioneered the manufacture of Hydro-Mechanical Equipment in India in the mid-Fifties. It manufactures equipment for mega Hydro-Power, Irrigation and Flood Control Projects. It also specialises in Heavy Steel Structures for industrial and infrastructure projects.

Process Equipment & Agro Machinery

The Division pioneered the manufacture of Water Tube Boilers (1950) and Sugar Mill Machinery (1956). It manufactures hi-tech Plant & Machinery, Pressures Vessels, Cryogenic Vessels and Agro Machinery.

Projects

The Company is moving from products to projects to get into the big business league. Infrastructure Projects are the major driver of the Indian economy, and the Project Division of the Company is the creative hub to explore major opportunities for expansion and diversification in the Rail sector and other engineering fields synergic with its core competence.

Real Estate

The Real Estate development is going to be a major commercial venture of the Company following the recent judgment of the Hon'ble Supreme Court. It will add substantially to the fortunes of the Company in the near future. It is planned to diversify into civil construction activity to build the Turnkey Project capability of the Company.

Chairman's message

Dear Shareholders,

I take pleasure in presenting you an overview of the 70th Annual Report of Texmaco Limited for the year ended March 2010.

The financial year 2009-10 started in the backdrop of global uncertainties and financial turbulence. Fortunately, the Indian economy has done reasonably well and is poised to return to high levels of growth. Excluding China, India has recorded one of the highest growth rates in the world. In this regard, some of the noteworthy initiatives of the UPA Government are reflected in the massive expansion of the middleclass, major investments in rural India, and a slew of popular social schemes, which have been instrumental in attaining the growth rates being currently witnessed in the country. Inflation does remain a cause of worry, but with the prediction of a normal monsoon, it is likely to come under control by the end of the year.

It is a matter of considerable satisfaction that Texmaco completed a very successful fund raising programme to the tune of Rs. 1,705.60 million in July 2009 under QIP through an issue of 16.4 million equity shares, at 104 times of the face value of Re.1 per share. This has contributed to expanding our Reserves by over Rs. 5,428 million.

The Company recorded its highest turnover and profitability with a top line of Rs. 11,255 million and a cash profit of Rs. 1,505 million. The prospects for the core business of the Company – Railway Wagons - continue to be strong. Unfortunately, there was an abnormal delay in the release of the wagon order by Indian Railways for the year 2009-10. The Company would have produced a larger number of wagons if the order had been released on time.

Our professional Management and the value system helped us to perform well in the year, which will stand the Company in good stead in the future. One of the major steps taken by the Company was in the field of improving production efficiency and quality standards so that we earn the distinction by offering a superior quality of products to our customers. In this connection, we have engaged the services of global specialists to help raise Texmaco's ranking not only as the best in India but among the Best Wagon Makers in the world.
