What is Thiru Arooran Sugars ?

- Thiru Arooran Sugars Limited (TASL) is one of the most integrated sugar manufacturers in India. The company's operations are spread over two locations: at Kollumandugi (2500 tcd) and Tirumandankudi (5000 tcd) in Tamil Nadu.
- Both plants of Thiru Arooran are located in the fertile Cauvery delta of Thanjavur District. This area has a rich agricultural tradition with favourable agro-climatic conditions, fertile soil and adequate ground water. The plants are also linked by road and rail with Chennai and Tuticorin, facilitating the export of sugar during times of excess production.
- During 1997-98, the company completed the relocation of its sugar operations from Vadapathimangalam to Kollumangudi. This has helped the company in accessing cane from a smaller radial distance, resulting in lower transport costs. As a result of the relocation, the 2000 tcd manufacturing capacity at Vadapathimangalam has been phased out and replaced by a 2500 tcd capacity at Kollumangudi.
- The molasses generated by this aggregate 7500 tcd capacity feeds the company's alcohol producing distillery. This distillery has an installed capacity of 60 kl per day of rectified spirit and 30 kl per day of extra neutral alcohol.
- What makes Thiru Arooran different from most sugar manufacturers in India is its investment in

co-generation. The company has an aggregate co-generation capacity of 47 MW. During the sugar season when bagasse is available as a byproduct, the plant is capable of generating 36 MW; in the non-sugar season, the capacity is 38 MW. The proximity to lignite at Neyveli is a major advantage for the multi-fuel co-generation facilities.

- Thiru Arooran has a strong commitment to the environment and converts effluents generated in the various processes at its factories to make soil-enriching organic manure, liquid fertilisers and aqua feed. The company has also invested heavily in pollution control equipment, which has helped keep effluent discharge and particulate emissions well below the levels specified by the regulatory agencies.
- What sets Thiru Arooran apart is its integrated programme to maximise value-addition by utilising its byproducts. Apart from the manufacture of sugar which is a core operation, the byproduct molasses is used to make alcohol; the byproduct bagasse is used in the generation of electricity which is then commercially exported to the Tamil Nadu electricity grid. This degree of horizontal integration is perhaps the widest in the Indian sugar industry, helping the company insulate itself to a large extent from the cyclicity of the sugar industry.
- The promoters of Thiru Arooran hold a 40 per cent stake in the equity of the company. The company's shares are listed on the Chennai, Mumbai and National Stock Exchanges.

Our Vision

To achieve enhanced, sustainable, long-term shareowner value in responsible partnership with the environment.

Our Mission

- To maximise value from cane through core and down stream operations.
- To pursue efficient solutions through front-line technologies for delivering value.
- To be recognised as the industry proxy for balanced growth.
- To be respected as a credible and dependable partner with its stakeholders - the farmers, customers and employees.
- To remain committed to the highest standards of conduct which include a respect for the laws of the land, the production of an output of acceptable quality, protection of the environment in which the company operates and fairness in dealing with its stakeholders.
