Our vision

To achieve enhanced, sustainable, long-term shareowner value in responsible partnership with the environment.

Our mission

- To maximise value from cane through core and downstream operations.
- To pursue efficient solutions through front-line technologies for delivering value.
- To be recognised as the industry proxy for balanced growth.
- To be respected as a credible and dependable partner with its stakeholders - the farmers, customers and employees.
- To remain committed to the highest standards of conduct which includes a respect for the laws of the land, the production of an output of acceptable quality, protection of the environment in which the company operates and fairness in dealings with its stakeholders.

Our Stakeholder philosophy

To provide :

- Our shareowners with a superior long-term return for their investment in the company
- Our farmers with a remunerative price;
- Our consumers with a consistently high quality of output;
- Our employees at all levels with challenging and satisfying work that includes continuing opportunities for personal development, and
- Our society with an exemplary demonstration of social responsibility and citizenship at the corporate level.

Our quality policy

The objective of Thiru Arooran Sugars is to evolve and consistently maintain a Quality Management System across all departments so as to conform to national and international standards in all its end products.

Report  junction.com

Our quality objectives

To identify and improve farming methods to produce quality cane and continuously improve on the same through in-house Research and Development as well as through a continuous interaction with farmers and institutions.

To identify, improve and follow the process of continuous upgradation of the end products.

To improve productivity by adopting preventive maintenance of the plant and machinery.

To improve work methods for increasing efficiency at various levels of operations, thus meeting quality standards and reducing cost.

To develop a long-term relationship with suppliers for ensuring better values and quality in a manner that is mutually satisfactory with no conflict of interest.

To run operations within each parameter of pollution and environmental standards to the satisfaction of all relevant stakeholders.

To create a culture of quality through continuous training and educational programmes for employees at all levels in the organisation.

Corporate

The management and preservation of the environment is a prime and challenging responsibility of business today. The expansion of commercial interests has so degraded the living environment that the big question is whether we can at all hand the earth down to succeeding generations in a form which enables them to live and prosper in dignity.

The challenge is therefore to produce, without depleting the natural resources. Without disturbing the ecology and to be able to do it repeatedly. The emphasis is on 'renewable'.

Thiru Arooran prides itself on making an honest effort on being able to live up to this philosophy. The molasses generated as co-product from the manufacture of sugar is converted into alcohol which, in turn, is used to produce chemicals that would otherwise be manufactured through non-renewable resources. Some of these co-products can also be used as an additive to petrol in motor vehicles, thus enabling the conservation of limited crude resources. The other co-product bagasse, derived from the crushing of sugarcane, is used to generate power, thereby reducing the use of fossil fuels.

The effluent from the production of alcohol is composted with the co-product pressmud from the sugar factory to produce an organic manure which is used by farmers to improve the organic content in the soil. This enables the farmers to return to the soil what they take out of it.

All these activities at Thiru Arooran are truly renewable and can be sustained as long as we continue to grow sugarcane.

Board of Directors
